Background

The Certificate of Final Completion for Sanitary Sewer District No. 537T was approved on March 8, 2016 with April 12, 2016 set as the date for Council to sit as the Board of Equalization. Due to legal description concerns with affected properties this item was pulled from the April 12, 2016 council meeting to allow sufficient time to ensure all documents are correct and legal for filing with Hall County Register of Deeds.

All work has been completed and special fees have been calculated for the tap district.

Discussion

Sanitary Sewer District No. 537T was created by City Council on November 10, 2015, via Ordinance No. 9564. Such sanitary sewer district construction was combined with North Interceptor Phase II work.

Work on the tap district was completed at a total price of \$177,026.57. Costs for the district break down as follows:

That cost is apportioned to each of the properties within the district based upon equal division of lots served to determine the connection fee. Properties that have already made connection to the sanitary sewer main prior to installation of the new main will be given credit towards their tap fee calculation from their pre-existing sanitary sewer agreement. Connection fees will be collected prior to the properties being connected to City sanitary sewer service. Unlike an assessment district which allows for payments to be spread over a 10 year period at 7% simple interest with the first payment of principle only due 10 days after the ordinance is filed, the tap fees are not due until such time the property owner chooses to connect to the City sanitary sewer main and is due in full at that time.

The allocation for District 537T was completed at a construction price of \$177,026.57, with existing agreement credits of \$1,112.76 and a contract credit of \$80,000.03 for a revised tap fee total of \$95,913.78.
