**#2017-27 - Approving Bid Award for Drainage Ditch Grading,
Excavating, and Hauling 2017**

Staff Contact: John Collins, P.E. - Public Works Director

Council Agenda Memo

From: Shannon Callahan, Streets Superintendent

Meeting: February 14, 2017

Subject: Approving Bid Award for Drainage Ditch Grading, Excavating, and Hauling 2017

Presenter(s): John Collins PE, Public Works Director

Background

Specialty equipment/operators are hired by the Streets Division to clean and grade large outfall ditches each year. The price per hour of such services has increased so the jobs are approaching the procurement point in which formal quotes are required. The timeline of the ditch work is weather dependent and is usually done when the Streets Division has staff to provide the hauling. These timelines can be difficult to forecast making the process of securing formal quotes from various vendors also difficult. The formal bid process will streamline the procuring of such as-needed services.

A primary and secondary bid award is being recommended for each equipment type so the optimal equipment can be used in the event the primary award vendor is unavailable or unable to meet the Streets Division's timeline.

Bidders were given the opportunity to write-in equipment that they own/operate that could be used for drainage ditch grading, excavating, and hauling that was not specifically requested on the bid form. The write-in bid items allows the City a wider variety of equipment that otherwise would go unknown.

This is the first formal bid request for these types of as-needed services for the Streets Division. If this manner of procuring such services is deemed successful by the Streets Division then it can become an annual practice.

Discussion

Bids were advertised on December 23, 2016 and sent to (6) six potential bidders. Four (4) bids were received and opened on January 18, 2017. Below is the bid award recommendation.
