Council Session

Item F-2

#9656 - Consideration of Amending Chapter 5 of the Grand Island City Code Relative to Mini-Pigs

Staff Contact: Jerry Janulewicz

Council Agenda Memo

From: Stacy R. Nonhof, Assistant City Attorney

Meeting: October 10, 2017

Subject: Chapter 5 Code Changes

Presenter(s): Jerry Janulewicz, City Attorney

Background

A citizen of Grand Island was found to be in possession of a mini-pig in violation of City Code. This citizen forwarded a request to the Animal Advisory Board to change City Code to allow citizens to have mini-pigs within the city limits. The Animal Advisory Board then met to discuss the proposed changes and to either approve or disapprove proposed changes. What is being presented tonight are the changes approved by the Animal Advisory Board.

Discussion

Codes regarding mini-pigs from numerous cities across the United States were examined for guidance in crafting code changes for Grand Island. A mini-pig will be limited to pure-bred animals of the species *Sus Scrofa Domesticus*. The five allowed breeds under this definition are the Vietnamese Potbellied, Juliana, African Pygmy (or Guinea Hog), Yucatan and Ossabow Island pigs.

Owners of mini-pigs will be required to license their pigs just as owners of dogs and cats are required to license their animals. Mini-pigs are required to provide proof of a series of vaccinations specific to pigs before the pig can be licensed. Also, mini-pigs will be required to be on a leash just as dogs are required to be on a leash if off the owner's property.

People will only be allowed to have one mini-pig that is no more than 100 pounds fully grown and measuring 22 inches in height at the shoulder. When applying for a license for a mini-pig, the owner must: show written proof from a licensed veterinarian that by the age of four (4) months the mini-pig has been spayed or neutered and show documentation that the mini-pig is a pure-bred of one of the five allowable breeds.

Mini-pigs are required to be vaccinated and blood tested annually. Veterinarians will be required to complete a certificate of vaccination and blood testing and then provide a copy of that certificate to the Animal Control Authority. If any mini-pig tests positive for

pseudorabies, brucellosis or other disease, the mini-pig is to be housed by the Animal Control Authority until it is cured of the disease. If the mini-pig cannot be cured, then the Animal Control Authority will destroy the mini-pig. Any housing of a mini-pig and/or destruction will be at the cost of the owner of the mini-pig.

Alternatives

It appears that the Council has the following alternatives concerning the issue at hand. The Council may:

1. Move to approve
2. Refer the issue to a Committee
3. Postpone the issue to future date
4. Take no action on the issue

Recommendation

City Administration recommends that the Council approve the Ordinance amending Chapter 5 of City Code allowing for mini-pigs.
