Study Session

Item -1

FY 2018 Budget Discussion

Staff Contact: Marlan Ferguson

Council Agenda Memo

From: Marlan Ferguson, City Administrator

Meeting: May 16, 2017

Subject: FY 2018 Budget Discussion

Presenter(s): Renae Griffiths, Finance Director
Marlan Ferguson, City Administrator

Background

During the budget process for the 2017 Fiscal Year Budget much discussion was held concerning future budgets and sustainability. The Mayor and City Council have determined to have a balanced budget for Fiscal Year 2018. In order to accomplish that goal there will need to be some tough decisions made. Currently the City's expenditures in the general fund are growing at a faster rate than the revenues in the General Fund. This is the result of a number of events, including becoming an MSA community which causes salaries to increase substantially by way of comparing to a different array of Cities. At the same time the City made the decision after a recommendation from a Public Safety Study completed by the ICMA; to increase the number of police officers and support staff in the police department by 17 FTE since 2012. In the FY 2017 Budget 62% of the expenditures in the General Fund is for the Public Safety Departments. In addition 77% of the expenditures are for personnel costs. As you know several study sessions were held to review various departments. The Administration has been reviewing expenditures, revenues and other ways to balance the budget.

Discussion

Tonight's study session is for the purpose of discussing and reviewing the FY 2018 budget of expenditures and revenues. We want the City Council to have a good understanding of the current budget concerns and look at long term planning. The administration is recommending that no more than 70% of the general fund revenues will be used for personnel expenses.

Conclusion

This item is presented to the City Council in a Study Session to allow for input from the council members. No action will be taken tonight since this is a study session.
