## **Specialized Adult Service Areas Policy**

DRAFT Approved April 16, 2018

The following sections of the adult services area of the library have been designed, programmed and equipped for specific audiences and for intended purposes.

- Senior Lounge
- Multicultural Center
- Literacy Niche
- Heritage Room

Within these sections all library collections are accessible to all patrons at all times. Seating areas, equipment and public access computer workstations within these rooms are reserved for their intended users, however. General seating and public access computer workstations are available elsewhere in the library for patrons not involved in the intended use of these sections.
