Council Agenda Memo

From: Stacy R. Nonhof, Interim City Attorney

Meeting: October 27, 2020

Subject: Animal Control Contract with the Central Nebraska Humane Society

Presenter(s): Stacy R. Nonhof, Interim City Attorney

Background

The City of Grand Island and Central Nebraska Humane Society (CNHS) previously entered into an agreement for CNHS to provide Animal Control and Pet Licensing services for the City. This contract is set to expire at midnight on October 31, 2020. On February 14, 2017, Council approved a proposed agreement for animal controls services with CNHS for one year with automatic renewals, but may be terminated by either party upon 90 days' notice. Notice was given in January 2020 and negotiations for a new contract commenced with CNHS.

The proposed agreement does not change the basic structure of the current agreement approved in February 2017. The services provided and the consideration for those services remain the same.

Discussion

City Administration and CNHS have reached a mutual agreement, subject to Council approval. CNHS will continue to provide Animal Control and Pet Licensing services for the City with no interruption of service.

The proposed agreement is a yearly contract with automatic renewals up to two (2) times, but may be terminate by either party upon 90 days' notice. The base rate contract price is a flat fee of \$388,500.00 paid in monthly payments beginning November 2020, with this base rate remaining the same for the initial term and up to two (2) renewal periods. The CNHS will continue to enforce City Code as it pertains to animals. The CNHS will continue to license pets but the City will be responsible for collecting license fees from and distributing licenses to area veterinarians.

The significant changes to this agreement from the prior agreement are the following:

- An increase from a base rate of \$370,000.00 per year to \$388,500.00 per year.

- The contract will be paid in monthly installments of \$32,375.00 beginning November 2020.
- An annual audit is no longer required of CNHS, but they are to provide annually to the City a copy of the annual financial review.
- CNHS shall deliver to the City a complete copy of the financial audit done once every three (3) years of CNHS.
- CNHS shall implement a Trap Neuter Release (“TNR”) program as outlined in Exhibit “E” to the contract. CNHS shall provide proof to the City of attempts at securing funding for the TNR program and shall provide monthly progress reports of the TNR program.

Alternatives

It appears that the Council has the following alternatives concerning the issue at hand. The Council may:

1. Move to approve
2. Move to deny

Recommendation

City Administration recommends that the Council approve the contract with the Central Nebraska Humane Society.

Sample Motion

Move to approve the contract with the Central Nebraska Humane Society.

CNHS Trap Neuter Release (TNR) Program

All cats brought in as a part of the TNR program will be tested for FIV and FELV. Any cat that tests positive for either or presents with any other major illness or injury, will be humanely euthanized. All cats deemed healthy enough to be altered and released will also be vaccinated against rabies. Any cat whose temperament permits, will be adopted out by CNHS as an indoor cat. The number of cats to be altered each week will be limited to six. At this rate, it is estimated that roughly 68 cats will be removed from the feral population within the first year if the program is fully funded.

CNHS will provide public education regarding feral cats through free radio, social media, and newspaper slots, and provide as many alter surgeries as funding allows. In order to make the program as cost effective as possible, the cats in the program will be trapped and brought to the facility by the public using their own equipment. This method saves on labor and equipment expenses, reserving more funds for actual surgeries.

This is the most cost effective TNR option. Additional involvement by CNHS will result in increased expenses including ACO labor, the purchase of additional live traps, and trap bait. To increase our weekly TNR limit above six cats, an additional animal control officer and vehicle will be required to specifically service this program. If these options are desired, CNHS is open to discussing this further.

The proposed program will be funded entirely by designated donations and grants. These funds are not guaranteed and could vary greatly from year to year. CNHS will not be obligated to perform any TNR services which would exceed the costs allowable by designated donations and grants received and cannot guarantee the number of cats we will be able to enter into the TNR program unless CNHS receives a source of guaranteed funding. This is not a program currently or previously in effect at CNHS, as such, it is not reflected in our previous expenses, current or proposed budget. If the city of Grand Island would like a guaranteed number of animals to be altered through this program, an additional fee outside of the proposed animal control contract will be required.
