August 25, 2022

Steve Hornady
Hornady Manufacturing
3625 W. Old Potash Hwy.
Grand Island, Ne. 68803

Dear Steve,

A note to say "Thank You" for taking time to review the Library Foundation's request for financial assistance in constructing a Police Substation at the Grand Island Public Library. Because of your interest in providing a secure Library experience for all our patrons and staff, the City of Grand Island has placed in the 2023 budget, monies to construct the Police Substation.

The Library is so fortunate to have Grand Island businesses like Hornady Manufacturing take an interest in providing great learning opportunities for young and old alike. Today the Library is much more than hard oak tables, and row upon row of books. With that said, we would welcome a visit from you or others from Hornady Manufacturing for a tour of the 21st century Library. We have an amazing Makerspace, computers, WIFI and digital lab.

Although "Thank You" is such a commonly used phrase, please understand the sincerity in which it's extended to you for your proactive interest in our Grand Island Public Library.

On behalf of the members of the Grand Island Library Public Foundation, the Library Board of Directors and the Staff and Leadership of the Library, we again say "Thank You."

Sincerely,

A handwritten signature in dark ink, appearing to read "Alan Lepler".

Alan Lepler
GIPL Foundation Board President
