Council Session

Item F2

#8717 - Consideration of Creating Alley Improvement District 1242

This Ordinance would establish Phase IV of the Downtown Alley Improvement project. District #1242 is located between 3rd and Front Streets from Elm to Cedar Street. If passed and constructed, Special Assessments would be levied against the property owners for improvements. Credit would be given to property owners for existing pavement and storm sewer mains. Laterals for downspouts, window well closures, etc. would be part of the costs assessed to individual properties.

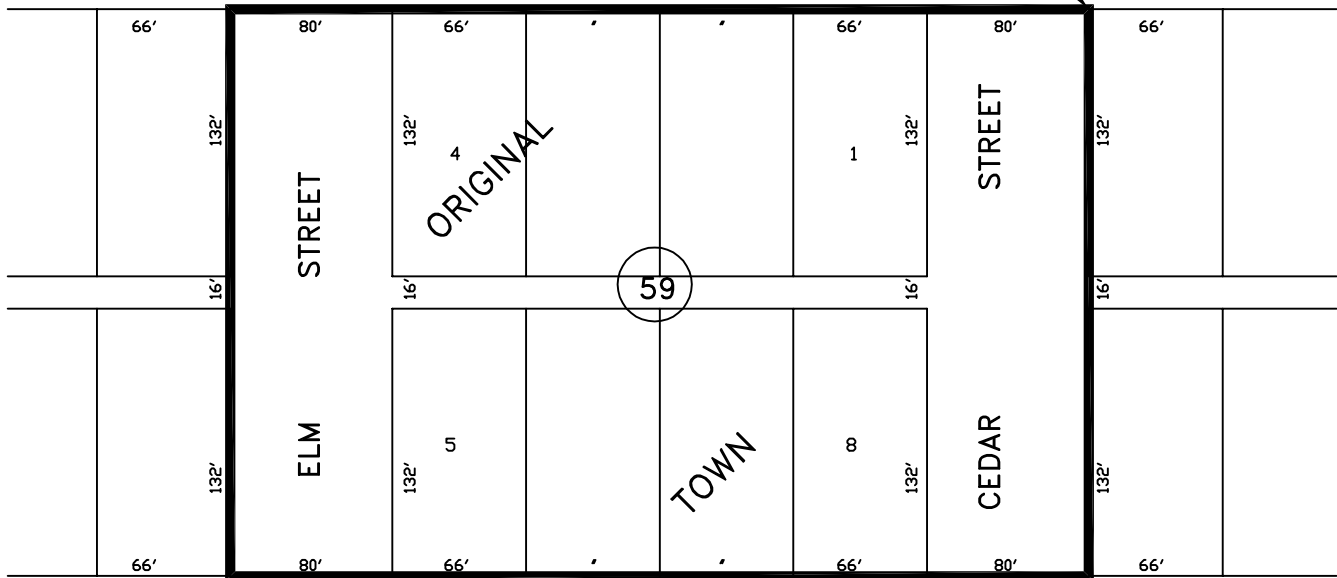

The Public Works Department recommends approval of these Districts. Most of the costs will be the City's with a small portion of the costs to be reclaimed through Special Assessments. The costs for the project are in the approved budget for FY 2002.
