Background

Data 911 systems of Chesterfield, Missouri was recently designated by City Council Resolution 2007-45 as the sole source provider for the future purchase of mobile data systems and mobile digital video systems. The police department recently participated in a bid process to purchase four Data911 mobile data and mobile digital video systems. The police department secured some additional funding through a grant with the Nebraska Office of Highway Safety to cover the majority of the cost to purchase two additional mobile data and mobile digital video systems (\$20,797.52 supplied by the Nebraska Office of Highway Safety and \$551.56 from the city police general fund, for a total purchase price of \$21,349.08).

Discussion

The police department is requesting council approval to purchase two (2) Data911 mobile data and mobile digital video systems.

4. Take no action.

City Administration recommends that the Council approve the purchase of two (2) Mobile Video Systems and Mobile Digital Video Systems from Data911.
