Background

On October 14, 2008 the Waste Water Division of the Public Works Department advertised for bids for the application of a corrosive resistant coating system to concrete surfaces of the odorous air scrubbing filter (Bio-Filter) at the Waste Water Treatment Plant. The Bio-Filter is used to scrub odorous air from portions of the solids handling processes at the plant.

Discussion

Four (4) bids were received and opened on October 21, 2008. The Purchasing and Waste Water Divisions for the City have reviewed the bids.
