Discussion of Dog Ordinances

Three ordinances have been drafted for addressing some concerns that have been raised recently about the City Dog and Animal Ordinances. One ordinance would make a change to the mandatory annual meeting times from the current requirements for meetings on the first Tuesday of January and the first Tuesday of July to the first week of January and the first week of July. This change is being proposed for two reasons which are that the first Tuesday of these months will on some years fall on a holiday and also because the Animal advisory Board has changed its meeting days to Monday. The proposed change will give the Board enough additional flexibility in scheduling its meetings so that it will not be in conflict with the City Code.

The second ordinance has been drafted to address the concerns of the Grand Island Kennel Club. The Kennel Club is being annexed into the City and this ordinance will establish a permitting procedure and an exemption to the animal running at large ordinance for training and showing dogs by a nationally recognized animal organization or a local affiliate.

A third ordinance is being proposed to exempt police dogs from the animal running at large and the dangerous dog ordinances. Law enforcement has requested that a specific exemption be placed in the municipal code for the training and use of dogs for law enforcement purposes. The exemption would apply to dogs from all of the various law enforcement agencies.

Animals may be off of a leash at an animal show that is sanctioned by a nationally recognized animal organization if such show obtains a permit from the Grand Island Humane Society. The application for said permit shall set forth the date and place of the show or event, and list the types of activities that will be taking place at the event. If the activities at such animal show do not violate any of the provisions of the Grand Island City Code other than the running at large ordinance, or involve inhumane treatment of the animals at such event then a permit shall be issued by the Grand Island Humane Society and a copy of the permit shall be sent to the Grand Island City Clerk and to the Grand Island Police Department.

Item -3

Update on Northwest Grand Island Flood Study

Sections of Northwest Grand Island experienced significant flooding during the 1967 flood. Most of the area North of Capital Avenue and West of Broadwell Avenue are within the 100 year flood plain. The area between Webb Road and US HWY 281 bounded by Capital Avenue on the North and with State Street on the South is also within the 100 year flood plain. There have been flood control improvements built in the area in the past, but the Moores Creek Wetshed and Northern Grand Island can still suffer considerable flood damage due to spill over of flood waters from two other watersheds, namely Silver Creek and Prairie Creek.

The City of Grand Island has been working with the Central Platte Natural Resources District on a feasibility study and preliminary design of flood control measures for this area. Parson's Engineering Science, Inc. of Denver Colorado is preparing a project grant application for Natural Resource Development Funds(NRDF).

Gary Lewis of Parson's will present details of the proposed project and grant application. Council will consider a resolution in support of the grant application at the December 23, 2003 regular meeting.
