Study Session

Item -1

Discussion Concerning Boards and Committees

Staff Contact: Gary Greer

Council Agenda Memo

From: Gary D. Greer, City Administrator

Meeting: December 14th, 2004

Subject: Boards and Committee Discussion

Item #'s: 1

Presenters: Gary D. Greer, City Administrator
RaNae Edwards, City Clerk

Background

Each year the City Council reviews the various Boards and Committees for the following year. In reviewing the Boards and Committees it is beneficial to:

- Determine if any appointments need to be made
- Review the effectiveness of the Boards and Committees
- Determine if new boards need to be created
- Determine if current boards are no longer needed or beneficial
- Review any changes in Boards that may be necessary
- Make any suggestions to create stronger and more effective Boards and Committees
- Are Council liaisons needed on various Boards and Committees

Discussion

City Administration has developed a Board and Committee computerized management system to enhance the City's effectiveness in managing the various groups that help the community. Attached is a report from the new system. RaNae Edwards will perform a live on-line summary demonstration of this new tool for the Council during the study session. Additionally, the Council will be asked to review current Council appointments to the various Boards and Committees and recommend appointments for next year. Attached is a list of the current appointments that need to be considered. The Council appointments will be approved at the December 21st meeting.

Additionally, the Council may want to have a philosophical discussion on the directions that the Council wants Boards and Committees to move in the future. Some issues that have been brought forward over the last year on this subject include:

- Should Council Members be required to participate in several Boards and Committees?
- Should the City require that they have a voting member on Boards when there is a large financial investment in and organization? Ie: Humane Society, Health Department, and Economic Development?
- Has moving the CRA from the City to Chamber of Commerce been a beneficial move and in the best interest of the community?
- Has moving the Business Improvement Districts from the City to the Chamber of Commerce been beneficial and in the best interest of the community?
- Are there any Boards or Committees that need to be formed?
- Are there any Boards or Committees that need to be dissolved?
- Are there any changes to the Board and Committee structure that need to be made?
- Do we have too many or too few Boards and Committees?

Any other subjects that the City Council wishes to discuss concerning the Boards and Committees are appropriate to discuss during the study session.

Alternatives

Being a study session, the Council can not make any decisions on the subject at hand. Therefore, The City Council is asked to engage in discussion concerning the issue at hand in order to facilitate future decision making.
