Official International Walk to School Day.**

Staff Contact: City Council

Official International Walk to School Day Proclamation

October 2nd, 2019

Whereas, the lives of hundreds of children could be saved each year if communities take steps to make pedestrian safety a priority.

Whereas, a lack of physical activity plays a leading role in rising rates of obesity, diabetes and other health problems among children and being able to walk or bicycle to school offers an opportunity to build activity into daily routine.

Whereas, driving students to school by private vehicle contributes to traffic congestion and air pollution.

Whereas, an important role for parents and caregivers is to teach children about pedestrian safety and become aware of the difficulties and dangers that children face on their trip to school each day and the health and environmental risks related to physical inactivity and air pollution.

Whereas, community leaders, school personnel and parents can determine the "walkability" of their community by using a walkability checklist.

Whereas, community members and leaders should make a plan to make immediate changes to enable children to safely walk and bicycle in our communities and develop a list of suggestions for improvements that can be done over time.

Whereas, children, parents and community leaders around the world are joining together to walk to school and evaluate walking and bicycling conditions in their communities.

Now Therefore, Be It Resolved that I, **Jeanne McKerrigan, Vice President of Council** proclaim October 2, 2019 "International Walk to School Day" in **Scottsbluff, NE** and encourage everyone to consider the safety and health of children today and every day.
