## History and Facts

The City of Scottsbluff, as well as Scotts Bluff County, receives its name from Scott's Bluff, a well known natural landmark which rises 800 feet over the North Platte River Valley. The early day explorer and fur trapper, Hiram Scott, traveled through the region in search of fur pelts to be sold in eastern markets.

In December, 1899 the Townsite for Scottsbluff was laid out by the Lincoln Land Company, a Burlington Railroad subsidiary, on land purchases from the Elizabeth McClenahan family. The plot for the town was filed with the Scotts Bluff County Clerk on January 20, 1900, and the railroad tracks reached the townsite in February.

Construction began on the first building in Scottsbluff in March of 1900. This building housed a grocery store owned by Ed H. Kirkpatrick. The second building was for the Emery Hotel. Soon these businesses were joined by the Carr Neff Lumber Co. which was located in a location close to the current site of the Carr Trumbull Lumber Co. The first newspaper was started in May of 1900 by E.T. Westervelt and was called The Scottsbluff Republican. In addition to these buildings the residents of the town also built a Presbyterian Church.

Louis Probst and others petitioned the Scotts Bluff County Commissioners on June 20, 1900 to incorporate the Village of Scottsbluff. The business district of the village continued to grow as two saloons, a feed store, a barber, a dressmaker, a bank, a hardware store, a drug store, a general merchandise store, a post office and restaurants were added in quick succession. Homes were constructed and a four-room school house was built where City Hall at 1818 Avenue A was located.

The men and women of the 1900's who founded the City of Scottsbluff were a vigorous and self-reliant group of individuals who settled where they felt they had a good opportunity for success. They sought to raise families in an environment which would offer education, religion and culture. They were dedicated to the institutions of free government.

The Village Board of Trustees was elected in April of 1904 and headed by Chairman J.C. McCreary. In 1911 the population had grown sufficiently to allow for the organization of a second class city with a Mayor/Council form of government and the first Mayor was Frederick Alexander. Scottsbluff became a first class city with a population of 5,168 in 1916 and C.H. Westervelt was elected to serve as Mayor. After an election held in May, 1949 the City was reorganized under the Council/Manager form of government with 5 Councilmembers elected at large and a Mayor elected to serve as President of the Council by his fellow Councilmembers. The first Mayor to serve under the new form of government was V.R. Blackledge.

## History and Facts

The early citizens of Scottsbluff organized first a private library collection and then supported the City involvement in providing this service. As early as 1910 a dedicated group of citizens were active in providing the community with a collection of materials to support their need for information.

Other city services were also developed initially in response to the desire of residents to make a good life for themselves within the area, known as “America’s Valley of the Nile”. The City Hall was located at various locations throughout the downtown district of the community during the early years and was always in rented space. It wasn’t until 1956 that the citizens of Scottsbluff approved a bond issue to construct a building to house their City government at 1818 Avenue A.

Great Western Sugar Company was important to the history of early settlers of Scottsbluff. The Scottsbluff sugar factory was built in 1910 and subsequent growth in sugar beet production contributed to continued stability in the economy of the area.

The growth and development of the health care industry over the years, in addition to increasing expansion in the retail and service business districts, have joined with agriculture based concerns to build a local economy which is joined with the community of Gering in providing support for a trade area which reaches as far as 80 miles from the city limits. The common concerns and common interests of residents in the Twin Cities have led to increasing cooperation for programs of mutual benefit to all residents.

## Letter from the City Manager

Honorable Mayor, City Council and Citizens of Scottsbluff:

I am honored to present you and the citizens of Scottsbluff the complete budget for Fiscal Year 2022/2023. Every year, the City Council adopts a budget that matches the services desired by the community with the financial resources required to adequately provide those services.

This budget reflects the vision and goals of the City Council and supports the services, programs and infrastructure provided by the City. The budget for these critical services allows us to provide value added results that impact and improve the daily lives of those who live, work and visit the City of Scottsbluff.

City staff has worked to ensure openness and transparency in the budget process. Beginning in May 2022, the City's budget and financial team met with each department with the clear objective of increasing the effectiveness of the budget, identifying cost savings, reducing expenditures and improving service delivery. On July 27, 2022, the City Council held a Budget Workshop that indicated trends used to develop departmental budgets, revenue budgets and to update the Capital Improvement Plan.

Staff has reviewed expenditure categories and proposed reductions where possible due to uncertain economic times. This budget presents expenditures which are expected to exceed forecasted revenues for the upcoming 2022/23 fiscal year. Due to the expenditures exceeding projected revenues, in an effort to maintain service delivery, this budget like the past budget shows a reduction in cash reserves. The projected expenditures for the 2021/2022 are lower than originally planned due to supply chain issues for capital expenditure items and conservative spending by departments, thus a large portion of the proposed 2022/2023 expenditures are carry-over items. The spend down of cash reserves meets the financial policy

requirements of cash on hand, with a long-term focus of keeping debt loads low and adequate cash on hand for emergencies.

The City of Scottsbluff's all funds budget, net of transfers is \$46.2 million. Approximately \$12.3 million is allocated toward General Fund services.

The City continues to identify opportunities to reduce costs and to attract new sources of revenue. To this end, the City is investing in Economic Development efforts and Infrastructure while also looking for creative measures to ensure that effective services are provided.

The City continues to practice prudent fiscal management to ensure its resources are adequate to draw upon during the economic downturns and to meet its future obligations. The Fiscal Year 2022/23 Budget presents a plan for addressing the goals of City Council within existing resources. The budget supports community services, programs, and infrastructure while promoting the long-term goals and fiscal health of the City.

Yours Truly,

Kevin Spencer, Interim City Manager

## General Fund Cash Balance

Reserved funds, like savings plans, are mechanisms for accumulating cash for future capital outlays and other allowable purposes. The Scottsbluff City Council implemented a policy of a three-month *operating cash reserve* for the General Fund. A reasonable level of unrestricted funds provides a cushion for unforeseen expenditures or revenue shortfalls and helps ensure that adequate cash flow is available to meet the cost of operations. The graphic below depicts the year end General Fund cash balance as it compares to the three-month cash reserve requirement set by Council which is based on actual expenditures of the General Fund in the same fiscal year.

**Operating Cash Reserve Requirement vs. Actual Cash Balance - General Fund**

# CITY OF SCOTTSBLUFF, NEBRASKA

## General Fund Cash Balance

The General Fund’s budgeted unrestricted cash balance for the 2023 Budget is \$5,623,394 or 51.16% of expenditures (less capital outlay and debt service). A three-month reserve of General Fund cash would require a balance of \$2,710,239.

## Revenues by Source

Where does the City get its revenues? The primary sources of revenue for the City of Scottsbluff are retail sales taxes, lease payments from NPPD for the use of the City's electrical infrastructure, real estate and personal property taxes, occupation taxes, program generated fees and fines, other State revenue and City utilities.

**Budgeted Revenue by Source**

## General Fund Revenues

Where do the revenues go? The City’s budget begins with anticipated revenues. These funds are then allocated between funds and departments based on the goals, vision and policy set by the City Council, requirements of State Statutes, the programming and needs of each department and capital improvement requirements.

*Cash balance forward, transfers and bond/warrant proceeds not included in revenue amounts.*

# CITY OF SCOTTSBLUFF, NEBRASKA

## General Fund Revenues

The General Fund revenues which make up 30% of the City's total revenues are mostly attributable to taxes and lease payments from NPPD. A small portion of General Fund revenue is generated from fees related to parks and recreation (pool passes, park shelter rentals, softball and other recreation league fees), permit fees and fees for services (building permit fees, fingerprinting fees, fire inspection fees and security detail). The remaining balance is investment income.

## Sales Tax Revenues

Over half (63%) of the General Fund revenues are attributable to taxes. The majority (83%) of this tax revenue is from local option retail sales tax. The remaining tax revenue is generated by occupation and franchise tax, property tax and other State tax such as motor vehicle tax.

## Sales Tax Revenues

Sales tax revenues that the City receives are based on local consumer spending and are extremely difficult to predict. As a result, the Revenue Committee for the City which is made up of two members of City Council, the City Manager and Finance Director review historical sales tax receipts and trends. They create various forecasts for the current year's budget considering economic indicators such as unemployment, commodity prices, business and industry statistics and other economic factors that affect local spending.

### Sales Tax Revenue History

## Property Tax Revenues

A levy indicates the amount of tax property owners pay for each \$100 valuation of their property. Property tax can be calculated by Assessed Valuation divided by 100, then multiplied by the levy. The City's requested levy for the Budget Year 2023 is .2160. A citizen can expect to pay \$216.00 in City taxes on a \$100,000 home.

Total property tax revenue is budgeted to increase without a rate increase due to an increase in property valuations. Valuations increased from \$959,494,706 in 2021 to \$1,006,747,091 in 2022, an increase of \$47,252,385 or 4.92%. Actual valuation of property is determined by the Scotts Bluff County Assessor.

### Division of the Property Tax Dollar

## Property Tax Revenues

How does the City compare to other First Class Cities in Nebraska? The City of Scottsbluff has the second lowest municipal levy rate in the State of Nebraska.

## Property Tax Revenues

Where do my property taxes go?? By Ordinance the City is limited to \$175,000 in property tax revenues allocated to the General Fund. The remaining property tax revenues that are collected by the City are allocated to debt service and capital improvements including equipment purchases for funds such as Public Safety.

## General Fund Expenditures

How is the money spent?? General Fund expenditures seem to cause the most concern for taxpayers as this Fund is a conglomerate of many Departments that provide services to the community most of which generate little or no revenue on their own. The General Fund, as noted previously is funded mostly by taxes and lease payments. The graphic below represents the portion of each dollar of budgeted expenditures for the General Fund that goes to each Department within the Fund.

**General Fund**

The General Fund is a conglomerate that provides the core, tax-supported activities of the City. The General Fund includes the departments of Administrative Services, Development Services, Fire, Police, Parks/Recreation, Scottsbluff Public Library, and non-departmental expenditures. These activities are grouped in the General Fund because, while they each do generate some revenue, they cannot support the full extent of their operations on the revenues they raise.

The General Fund of a City is often its budgetary focus and is the City fund able to be used for the most flexible and diverse purposes.

The General Fund is supported significantly by sales tax receipts and electric system lease payments (via transfer); other significant funding categories include state-shared, franchise payments, and user fees/charges.

**Administrative Services Department**

The Administrative Services Department encompasses allocated services from the City Manager, the Finance Department, Human Resources, Management Information Systems, the City Clerk and the City Council.

**Mission Statement**

The staff of the Development Services Department of the City of Scottsbluff are devoted to the preservation and protection of the health, safety and general welfare of each person who resides, works, is educated, and/or visits our City with diligence and without discrimination. We are further compelled and committed to the uniform application of our responsibilities and duties with respect to the moral and ethical consciousness, which is expected and required by a public servant.

The Development Services Department is responsible for the management and supervision of the planning, building and development functions of the City organization. The department is also responsible for administering the joint building inspection agreement and program with the City of Terrytown. The department administers the general development plan and serves in a staff advisor capacity on planning issues to the Planning Commission, Board of Adjustment, City Council and other City departments.

Among other specific duties, department staff members assist citizens with necessary permits and development plans, review building plans and plats, keep planning and zoning ordinances current, work with the City prosecutor to enforce the Scottsbluff Municipal Code, and provide information and assistance to economic development prospects.

In this budget year the Development Services Department will continue to assist in the development or management of specific projects to include, but not limited to, the following items and/or issues: a) expansion of inter-local agreements; b) integrate GIS within department activities and use with issuing of building permits and tracking inspections; c) maintain and improve the City's compliance with the Federal Flood Insurance Program; d) inventory of existing condition of infrastructure; e) impact development fees to pay for new infrastructure; f) policy for dedication for future infrastructure or land; g) working with the new storm water ordinance to make sure new construction will be in compliance with storm water guidelines. h) promotion of innovation to publications/cities/organizations; i) regionalism issues; j) participate in continued opportunities to integrate planning activities and infrastructure with Gering; k) participate in the strategic development of statewide, regional, and local water resource management and legislation; l) update development and zoning policies, procedures and codes; m) issues relative to community aesthetics.

Planning and organization efforts for these and other projects are contained within the proposed departmental budget.

Elite Health Professional Medical Office Building  
42nd Street & Avenue I

**Mission Statement**

The Scottsbluff Fire Department is committed to doing our job, treating people right, brining and all-in attitude and giving an all-out effort in the performance of duties.

Our core values:

Excellence – we will achieve professional excellence in all aspects of our duties

Compassion – we believe in empathy and kindness towards the needs of those we serve

Courage – we will display the mental strength and moral character to do what is right for the protection of our coworkers and community

Respect – we will serve our community and each other with dignity, integrity, appreciation and kindness

The Fire Department maintains an all-hazards approach in providing fire and emergency services twenty-four hours a day. These services include, but are not limited to, fire suppression and cause determination, emergency medical services, hazardous materials response and mitigation, technical rescue and water related search/rescue and recovery.

Non-emergency functions include, but are not limited to, preparedness planning and training, equipment maintenance, pre-incident planning and fire prevention and life safety education. The Fire Department strives to create a safe community and minimize known risks for all residents and visitors.

**Mission Statement**

The mission of the Scottsbluff Police Department is to enhance safety, service and trust with our community.

- Keep our community safe by preventing citizens from becoming victims of crime or from being injured in traffic collisions. This is our highest priority.
- Provide excellent service to the numerous requests we receive from the community. Our principle duty is to serve.
- Maintain the trust of our community. This trust provides every department member with the foundation required to carry out our duties. Without trust we simply do not have the authority to serve our public.

The phrase "with our community" is included to reflect our desire to work side by side, in partnership with our community as we collectively fulfill our mission.

The Scottsbluff Police Department strives to provide services for all individuals through aggressive enforcement efforts and community relations programs. In order to provide effective, courteous and professional services, the Department has prioritized various functions to include:

Officers Kuhlman & Massie

**Operations** - Officers respond to calls for service from the public, in addition to working cooperatively with other government agencies. Patrol Officers often encounter situations that require expertise and knowledge in recognizing and responding to social issues within the community. Societal standards present challenges that impact public safety and quality of life for all individuals living and visiting Scottsbluff. Training of personnel is paramount as it relates to addressing such issues as domestic violence, criminal investigations and increasing cyber-crime related activity.

**Training** – The Department strongly supports career development within all sections of the organization. Personnel frequently address complaints or questions from the public and personnel must be prepared to de-escalate tense and frustrated individuals, yet casually guide those seeking assistance. State law mandates sworn personnel receive annual training and certification in various disciplines, to include firearms and domestic violence training. Investigative and patrol personnel benefit from specialized training in areas such as drug recognition, crime scene processing and interview techniques.

**Specialized Services** – The Department supports and maintains a Specialized Weapons and Tactics Unit (SWAT) and a Bomb Disposal Unit. Current training and certification is a priority within those units. The Department also maintains a School Resource Officer position and a K-9 program. All of these units are critical to the law enforcement function.

**Emergency Management** – The Region 22 Emergency Management Director receives superintendence from the Police Chief. Region 22 encompasses Scotts Bluff and Banner Counties. Emergency preparedness and response to critical incidents is a priority for this position.

**Police Services** – The Department also moved into a new facility and now shares space with the Fire Department and Region 22 Emergency Management. Region 22 offices were re-located from the Scotts Bluff County Administration Building. Sharing of the same office workplace areas should greatly improve operations within the departments.

**Technology** – The Department has commenced transitioning to a management software program which greatly enhances interoperability with other local law enforcement agencies and the Scotts Bluff County Consolidated Communications Center. Connectivity in addition to information accessibility to data bases through Mobile Data Terminals for sworn personnel will be phased in dependent on funding sources.

**Community Policing** – The Department continues to develop Neighborhood Watch Groups and solicits volunteers into its Volunteers In Police Service program (VIPS).

**Regional Library Fund**

The Regional Library Fund was established many years ago to handle State and Federal funds reimbursing the library for contractual services provided to other libraries in the Panhandle area and as reimbursement for being net lenders in cooperative interlibrary loan activities. Grant funds and contractual funds are now included here. Any balances in this fund are carried over to the start of the next fiscal year and a small portion of the balance supplements the regular library budget in lean years.

**Mission Statement**

The staff of the Streets Department of the City of Scottsbluff are responsible for providing prompt, professional and efficient service to the citizens of Scottsbluff and strive to maintain the best street network possible with public safety being of the highest priority.

The mission is accomplished through effective management, planning, street maintenance, capital projects, traffic control and snow removal.

The Streets Fund provides for the operations of the Streets Department. The Streets Department is comprised of a Director, a Foreman, four Heavy Equipment Operators, six Motor Equipment Operators and a Clerical Technician.

The Streets Department is responsible for street repairs from crack-sealing to snow removal to replacement. The Department paints striping for streets and crosswalks, sweeps streets, installs signs, repairs signal lights, installs holiday decorations, barricades streets and alleys, blades unsurfaced streets and alleys, mows public rights-of-way, controls snow and ice on roadways, controls mosquitoes, repairs catch basins, gravels unsurfaced streets and alleys, and repairs curbs and gutters. The Department also compiles various reports, such as lane-mile, inventory, one- and six-year street improvement plans, and handles citizen requests in a timely manner.

**Lane Miles** - a lane mile is an 11' lane of street one mile long. The City is responsible for 340 lane miles. It is 319 miles from Scottsbluff to Hastings. Maintaining 340 lane miles of street would be like sweeping, removing snow, striping, patching, signage and replacing sections of road surface as needed - on one lane of roadway from Scottsbluff to Hastings (plus 21 miles).

**Traffic Control** - the Streets Division also oversees public roadway signs and 35 traffic control signals throughout the City. Of note, the State controls all traffic signals along Highway 26. The City assists the State of Nebraska in maintaining those traffic signals through changing light bulbs.

The Streets Department will continue their inter-local agreements for painting and sweeping with the City of Terrytown. We will also be converting our records and drawings to the GIS system which will allow us to track street maintenance electronically.

We will continue to chip seal residential streets and work on mill and overlay of mains throughout the City in 5 year increments.

**The Cemetery Perpetual Care Fund**

The Cemetery Perpetual Care Fund is established by State statute for the perpetual care, maintenance and improvement of the Fairview Cemetery. This fund receives revenue from a dedicated property tax levy and through perpetual care assessments from non-Scottsbluff resident users. The annual revenues into this fund are transferred to the Cemetery Fund to support operations, maintenance and capital improvement activities.

**Special Projects Fund**

The Special Projects Fund is a “catch-all” fund for projects which do not fit neatly into other funds. Typically, projects in this fund are the result of reimbursement grants, transfers from other funds, or other revenues which are specifically tied to a particular expenditure. A significant sum is usually included in the “Miscellaneous” expenditure and revenue accounts of the fund to allow any unanticipated activity to fit under the authorized budget.

**Economic Development Fund**

The Economic Development Fund receives revenues and funds projects as part of the City's LB840 Economic Development Program. This program, authorized under the Nebraska Local Option Municipal Economic Development Act of 1991, allows sales tax receipts to be specifically earmarked for economic development activities.

The intent of the program is to create jobs in and around the City of Scottsbluff. Eligible businesses include those in manufacturing, interstate commerce, value-added agriculture and telecommunications. Monies may be used to provide job credits, buy land and retain technical expertise on behalf of an eligible business.

To date the City of Scottsbluff has funded over \$9 million in grants and loans via the LB840 Economic Development Program to promote growth and development in and around Scottsbluff.

The LB840 program is administered by the City Manager, who receives guidance and oversight from two citizen committees. The City Council retains the final authority for disbursement of funds. The LB840 program sunsets in October, 2025.

**Mutual Fire Organization Fund**

The Mutual Fire Organization Fund is provided for the purpose of financing operational and equipment needs for fire protection, emergency response or training within our joint areas of operation. There are currently fourteen separate fire agencies in Scotts Bluff County comprising the inter-local Mutual Fire Organization.

Funding for the organization is made available through the Nebraska Mutual Finance Assistance Act.

**Debt Service Fund**

The Debt Service Fund is used to retire the long-term debt obligations of the City. This fund is used to service general obligation and special assessment debt.

The fund is supported through revenues from a dedicated property tax levy along with principal and interest payments from special assessments.

Nebraska does not have a statutory limit on a City's level of outstanding general obligation debt.

**CDBG Fund**

Community Development Block Grant (CDBG) funds are administered through the Community Development Division of the Development Services Department. The division provides grant administration services for Federal, State and Local grant projects. Primarily, the division prepares applications for CDBG funds to be used in the comprehensive neighborhood revitalization of our blighted neighborhoods. The department conducts all phases of grant administration from approving applications to bidding projects, monitoring construction, completing financial records, and final inspections.

The Community Development Division will assist with community meetings and attitude surveys to determine the projects and areas that need assistance. These projects generally fall into the categories of housing rehabilitation, neighborhood revitalization and public works. The division also administers economic development and rental rehabilitation revolving loan funds. The Nebraska Department of Economic Development monitors all CDBG activities.

**Capital Projects Fund**

This fund was created effective October 1, 2013 to allow for the purchase of equipment items for the Administration, Library, Parks and Recreation departments.

Examples of these purchases include vehicles, copiers, mowers, gators and other capital items.

This fund will allow the City to make purchases and replace equipment per a schedule rather than via capital lease.

**Mission Statement**

The Environmental Services Department is committed to providing the best possible service to all citizens and the regional community through responsible trash and recycling collections. We will effectively respond to constituent needs and efficiently deliver services to the community, continue and expand intergovernmental cooperation to bring economies of scale and reduce operational costs.

The Environmental Services Fund provides for the operations, maintenance and capital expenditures of the Environmental Services Department. The Environmental Services Department provides specific services including: solid waste and yard waste collection to all residential customers; collection for commercial, industrial and institutional customers; special pickups for items which will not fit in the normal containers; 2.0 cubic yard construction containers; repair and replacement of solid waste containers; additional solid waste and yard waste collections on an individual basis; and a staffed tree dump/compost facility.

The Department also offers electronic and paint recycling, curbside residential and commercial recycling programs, staffed drop-off, processing and community education to the region.

**Mission Statement**

Mandated by Federal and State government, it is the Wastewater Reclamation Department's responsibility to protect public health by providing efficient and economical collection and treatment of wastewater. Through a dedicated effort to enforce and comply with environmental regulations, staff is committed to the preservation and protection of the water environment and our natural resources.

The Wastewater Fund provides for the operation, maintenance and capital expenditures for the sanitary sewer collection system, treatment facility and biosolids process. These operations are governed by the Nebraska Department of Environmental Quality, Title 123 and EPA Regulation 503. The specific areas of operation supported by this fund include:

**Collection Infrastructure** – Employees maintain approximately 101 miles of sanitary sewer main, 2,090 manholes and 5 lift stations while performing an ongoing extensive program where each mile of sewer main is viewed with a sewer camera and cleaned when necessary. Manholes are uncovered, marked and raised to be accessible at all times.

**Wholesale Sewer Collection** – The City has a contract to receive and process effluent flow from the City of Terrytown. Their average annual flow is 49 million gallons.

**Fats, Oils and Grease Program** – Inspect sand and grease traps connected to the sanitary sewer and enforce cleaning requirements established in the Fats, Oils and Grease Ordinance to reduce the amount of solids entering the collection system.

**Treatment Process** – Employees operate and maintain the various pieces of equipment associated with the City's activated sludge, aerated lagoon system with UV disinfection. The annual average of influent flow is 768 million gallons, and effluent flow to the North Platte River is 616 million gallons.

**Sludge and Biosolids Processing** – Our treatment involves an extensive sludge process using a polymer feed system, activated sludge tanks, belt filter press and pumps. Cake solids are made and transported to the Compost Facility where they are mixed with amendments during the drying/turning process. On average, 441 dry metric tons of compost are produced each year.

**In House Laboratory** - Our employees perform sample analysis and process control in our in-house laboratory. An average of 600 samples are collected each month at various points in the treatment process to accurately examine the effectiveness of treatment and make changes to the process as the analysis dictates.

*City of Scottsbluff, Wastewater Treatment Plant*

**Stormwater Collection System** – Employees clean and maintain the stormwater collection system mains and help clean the Scotts Bluff Drain. The Wastewater Fund helps support project costs associated with stormwater infrastructure and personnel.

**Customer Service** – Service personnel respond to an average of 40 sewer calls each year. Other calls include assisting customers and contractors with sewer line locations.

**Geographic Information System** - The Fund supports the City's GIS which provides valuable mapping and data collection for the wastewater and stormwater systems.

Aeration Basin -  
City of Scottsbluff Wastewater Treatment Plant

**Mission Statement**

The mission of the Water Department is to provide the public with safe drinking water that meets the consumption and fire protection needs of the City while adhering to State and Federal regulations established for public water supplies. To effectively respond to customer needs and maintain our infrastructure in the most efficient and fiscally responsible manner.

The Water Fund provides for the operation, maintenance and capital expenditures of our public water supply that is governed by the Nebraska Department of Health and Human Services, Title 179. The specific areas of operation supported by this fund include:

City of Scottsbluff, Hydropillar

**Water Wells and Storage Towers** The control, maintenance, operation and daily monitoring of 12 public water wells equipped with chemical injection of Sodium Hypochlorite for system disinfection. The combined pumping capacity for the City's system is 14,100 GPM. Five towers offer storage of 2,750,000 gallons of water. The average annual consumption is 1.2 billion gallons.

**Wholesale Water Provider** The City has a contract to provide water to the City of Minatare who uses an average of 42 million gallons on an annual basis. They are connected to our system at Highway 26 and Rebecca Winters Road.

**Infrastructure** – Employees maintain over 133 miles of water main, 946 fire hydrants, 1,530 main valves and 6,429 service lines with curb boxes (property shut-off valves) that make up the distribution system. Employees maintain and repair water mains, fire hydrants, valves, water service lines, curb boxes and install new services for customers.

**Diggers Hotline (One-call) Locates** – Employees respond to an average of 600 diggers hotline locates each month. State law requires everyone to call for locates before digging. Each utility is responsible for responding to locates and marking their lines in the specific dig area. We locate water, sewer and stormwater utilities for the City.

**Water Meters** – The Water Fund supports the purchase of meters used to chart water use for billing purposes. There are 6,351 meters in the system that are read, maintained and repaired by the Water Department. Employees rebuild meters for use in the future when possible.

**Meter Reading** - Meters are radio read style allowing readings to be gathered remotely by passing locations rather than stopping at each of them.

**Cross Connection Control** – Employees mail notice to customers to survey plumbing connections once every five years. 1,715 testable backflow devices are installed to protect customer connections to the public water supply. Employees mail testing notices and track test reports for each device as required by DHHS Title 179.

**Customer Service** – Service personnel respond to an annual average of 3,900 requests involving starting or ending service, high use, reading verification, disconnections for nonpayment, reconnects, meter or radio read problems and leak investigations.

The Water Fund pays for half the Stormwater Program Specialist wage and also helps fund the Geographic Information System (GIS) mapping and data collection for the Water System.

**Electric Fund**

The Electric Fund is an enterprise fund provided for the operation of the City-owned electrical distribution infrastructure.

The City leases the infrastructure to Nebraska Public Power District (NPPD) in exchange for a monthly lease payment.

NPPD provides all services relating to electrical power production, distribution and customer service in the City of Scottsbluff.

The Stormwater Fund was created to detail the City's financial commitment to maintaining and improving its stormwater collection system including the Scottsbluff Drain.

Stormwater is the water that flows after a rainstorm or snowmelt. Unlike waste water, storm water is not treated. What gets in the water, stays in the water. Sediment, litter, pet waste, yard waste, fertilizers or pesticides, and vehicle fluids are all common pollutants found in stormwater. Scottsbluff is required under the federal National Pollutant Discharge Elimination System (NPDES) to protect its runoff from pollution to the maximum extent practicable. The Stormwater fund facilitates the programming to make that goal possible through education, training, inspections, and maintenance of the Municipal Separate Storm Sewer System (MS4) including the Scottsbluff Drain. The Stormwater fund is currently funded by the Waste Water fund and a stormwater surcharge.

The GIS Services Division is responsible for the maintenance and distribution of the City's Enterprise Geographic Information System data and its services. Funding for GIS is provided primarily by other City Departments; including Water, Water Reclamation, Transportation and Development Services. GIS is available to serve any and all City Departments and integration of GIS information into daily work flows occurs in many of them.

City GIS data is stored and maintained on site and is accessible to many users simultaneously through either ArcGIS Desktop software or more commonly Beehive software. Beehive software contains entry form and reporting capabilities that are integrated with GIS mapping which provides an easy to use map interface for entry of data and management of data. Several departments, including Development Services and Code Enforcement, use Beehive/GIS almost exclusively for data management and entry purposes. Most other City Departments use it in either data viewing or data management or a combination of the two. A GIS website developed by Beehive is also accessible to the general public. Other major uses of GIS currently include the Sewer Department mapping and camera system, Utility Department locator mapping, special projects, and other day to day requests.

Looking into the near future, maintaining and adding to GIS datasets as City growth/change demands will remain a priority. GIS will also continue to enhance access and use of GIS information by proliferating Beehive software into other City departments further. The City has also entered into a short term agreement with Scotts Bluff County for purchase of Pictometry 3D aerial photos which will serve a need for accurate and up to date aerial photos for City software users as well as the general public. GIS will remain a central component in day to day Wastewater routine maintenance and mapping operations and work will also continue to upgrade datasets for other utilities departments.

**Note: (A) must be less than the greater of (B) or (C) to be in compliance with the Statutes**

This Form is to be completed to ensure compliance with the levy limits established in State Statute Section 77-3442. The levy limit applicable to municipalities is 45 cents plus 5 cents for interlocal agreements.

State Statute Section 86-416 allows for a special tax to fund Public Safety Communication projects, the tax has the same status as bonded indebtedness. State Statute 72-2301 through 72-2308 allows bonds to be issued for Public Facilities Construction Projects. Amounts should be included as Bonded Indebtedness on Line 7 above.

A municipality may exceed the limits in State Statute Section 77-3442 by completing the requirements of State Statute Section 77-3444 (Election or Townhall Meeting). **If an amount is entered on Line 21, a sample ballot and election results MUST be submitted with budget. If voter approved override was completed at a Townhall Meeting, minutes of that meeting, and a list of registered voters in the municipality must be submitted.** Please refer to the statutes to ensure all requirements are met.
