1:15 p.m 2:00 p.m.	Other Council budget discussion

All funds:

CPI was 2.2% and this draft DOES include COLA at that percentage; it also includes merit increases
Health insurance increased 5%
Electricity figured based upon FY12 actual plus 8% FY13 and 4.5% FY14
Htg fuel figured based upon FY12 actual plus 1% FY13 and 3% FY14
Gasoline and other fuel figured based upon FY12 actual plus 1% each year FY13 and FY14
Currently insurance based upon FY13 actual to date. Will adjust accordingly if info rcvd in time Unemployment comp amounts reduced to 1.25% on first \$9,000 as compared to 2.5%

There are no projections for general fund or debt service fund at this time. These will be prepared once decisions to be discussed at this meeting and in the future are made.

Instead of capital lease financing items, start putting the property tax money aside to a capital fund and and pay for items as they are purchased. The capital lease requires legal from Lincoln to draw up the paperwork which creates issues in coordinating the process. Also, legal charges \$1,000 for the prep of this paperwork. Unless state legislation is passed to allow for municipalities to obtain loans.

Public safety (10:15 to 11)

Police	55,014 addtl cost of adding an officer for SRO; half to be paid by school; this is
	currently in the budget
Fire	57,000 approx cost of adding a firefighter; help with code enforcement

Admin, DS, Library (11 to 11:30)

Library	11,745	PT library tech 9 (1,040 hrs at starting step plus 7.65%)
Libiary	11,745	1 I notary teen 7 (1,0+0 ms at starting step plus 7.0570)

Parks (11:30 to 12:15)

CIPs: Splash arena	35,000	
Keno	,	ADA allocation for an intersection Beautification for East Overland any other allocations?

Pool is paid off in December 2022; started at \$2.3 million; current principal approx

Transportation & Utility (12:30 to 1:15)

			Per month	
	Current	Proposed	increase	
Environmental services	16.65	17.48	0.83	-
Wastewater	21.52	21.52	-	
Water	10.35	10.87	0.52	
Overall	48.52	49.87	1.35	estimated
				monthly increase

Stormwater surcharge at same \$0.50 per billing cycle

Fund 111

Summar

The General Fund is a conglomerate that provides the core, tax-supported activities of the City. The General Fund γ includes the departments of Administrative Services, Development Services, Fire, Police, Parks/Recreation, Riverside Zoo, Scottsbluff Public Library, and non-departmental expenditures. These activities are grouped in the General Fund because, while they each do generate some revenue, they cannot support the full extent of their operations on the revenues they raise.

The General Fund of a City is often its budgetary focus and is the City fund able to be used for the most flexible and diverse purposes.

The General Fund is supported significantly by sales tax receipts and electric system lease payments (via transfer); other significant funding categories include state-shared, franchise payments, and user fees/charges.

Mission Statement

To provide the foundation and support for other city departments, assisting them in delivering high quality services to Scottsbluff citizens. The Department assures the mayor and council's policy initiatives are implemented, provides day to day administrative oversight, projects, reports, and informs the community at large, city departments and the mayor and council.

The Administrative Services Department, comprised of the divisions of City Manager, City Council, City Clerk, Risk Management, Management Information Systems, Finance, Human Resources, and City Attorney, provides services internally and externally to the organization. Administrative Services provides general policy implementation, administrative oversight, management indicators, and informational reports and program initiatives to the City Council, City departments, and members of the public.

The Administrative Services Department provides specific services including: accounting; accounts payable and receivable; utility billing; investing idle funds; computer purchasing, training and maintenance; insurance purchasing and monitoring; maintaining official City records; providing legal assistance to the City Council and City departments; human resources administration, recruiting, and payroll processing; and budget development and administration.

Development Services

Fund 111 Dept 121

prission statement

The staff of the Development Services Department of the City of Scottsbluff are devoted to the preservation and protection of the health, safety and general welfare of each person who resides, works, is educated, and/or visits our city with diligence and without discrimination. We are further compelled and committed to the uniform application of our responsibilities and duties with respect to the moral and ethical consciousness, which is expected and required by a public servant.

Summa

The Development Services Department is responsible for the management and supervision of the planning, building and development functions of the City organization. The department is also responsible for administering the joint building inspection agreement and program with the Village of Terrytown. The department administers the general development plan and serves in a staff advisor capacity on planning issues to the Planning Commission, Board of Adjustment, City Council and other City departments.

Among other specific duties, department staff members assist citizens with necessary permits and development plans, review building plans and plats, keep planning and zoning ordinances current, work with the City prosecutor to enforce the Scottsbluff Municipal Code, and provide information and assistance to economic development prospects.

In this budget year the Development Services Department will continue to assist in the development or management of specific projects to include, but not limited to, the following items and/or issues: a) expansion of inter-local agreements; b) integrate GIS within department activities and use with issuing of building permits and tracking inspections; c) maintain and improve the City's compliance with the federal Flood Insurance Program; d) inventory of existing condition of infrastructure; e) impact development fees to pay for new infrastructure; f) policy for dedication for future infrastructure or land; g) working with the new storm water ordinance to make sure new construction will be in compliance with storm water guidelines. h) promotion of innovation to publications/cities/organizations; i) regionalism issues; j) participate in continued opportunities to integrate planning activities and infrastructure with Gering; k) participate in the strategic development of statewide, regional, and local water resource management and legislation; I) update development and zoning policies, procedures and codes; m) issues relative to community aesthetics.

Planning and organization efforts for these and other projects are contained within the proposed departmental budget.

Summary

Mission Statement

It shall be the mission of the men and women of the City of Scottsbluff Fire Department to, as one collective and cohesive team, provide for the life safety and community service needs of our service delivery area(s).

We shall reach out to our customers, both internal and external, and extend our collective hand to render whatever assistance we are able as we provide all of our customers with the most effective excellence in service delivery.

The Fire Department continues to offer a wide range of services to our customers which include: fire suppression (structural and wildland), emergency medical service, fire cause determination, hazardous material response and mitigation, rescue and special rescue, water related search/rescue and recovery. Public education, community outreach programs. Other emergency and non-emergency related services are offered as they are requested. We have begun a community outreach program that addresses training of personnel throughout the panhandle. It is our belief that the more interactions that takes place with the other agencies in the area the more efficient we will address the problems that arise in emergency management challenges.

Scottsbluff

Summary

The Scottsbluff Police Department will maintain order, preserve and protect the life, peace and property of citizens of the City of Scottsbluff by enforcing the laws of Nebraska, without favor or prejudice, and working cooperatively with the public to proide a for all citizens.

The Scottsbluff Police Department strives to provide services for all individuals through aggressive enforcement efforts and community relations programs. In order to provide effective, courteous and professional services, the Department has prioritized various functions to include:

Operations – Officers respond to calls for service from the public, in addition to working cooperatively with other government agencies. Patrol Officers often encounter situations that require expertise and knowledge in recognizing and responding to social issues within the community. Societal standards present challenges that impact public safety and quality of life for all individuals living and visiting Scottsbluff. Training of personnel is paramount as it relates to addressing such issues as domestic violence, criminal investigations and increasing cyber–crime related activity.

Training – The Department strongly supports career development within all sections of the organization. Personnel frequently address complaints or questions from the public and personnel must be prepared to deescalate tense and frustrated individuals, yet casually guide those seeking assistance. State law mandates sworn personnel receive annual training and certification in various disciplines, to include firearms and domestic violence training. Investigative and patrol personnel benefit from specialized training in areas such as drug recognition, crime scene processing and interview techniques.

Specialized Services - The Department supports and maintains a Specialized Weapons and Tactics Unit (SWAT) and a Bomb Disposal Unit. Current training and certification is a priority within those units. The Department also maintains a School Resource Officer position and a K-9 program. All of these units are critical to the law enforcement function.

Emergency Management - The Region 22 Emergency Management Director receives superintendence from the Police Chief. Region 22 encompasses Scotts Bluff and Banner Counties. Emergency preparedness and response to critical incidents is a priority for this position.

Police Services – Efforts continue to be made in evaluating the cost effectiveness, necessity and acceptability of the blending of the Scottsbluff and Gering Police Departments. The Department also moved into a new facility and now shares space with the Fire Department and Region 22 Emergency Management. Region 22 offices were relocated from the Scotts Bluff County Administration Building. Sharing of the same office workplace areas should greatly improve operations within the departments.

Technology – The Department has commenced transitioning to a management software program which greatly enhances interoperability with other local law enforcement agencies and the Scotts Bluff County Consolidated Communications Center. Connectivity in addition to information accessibility to data bases through Mobile Data Terminals for sworn personnel will be phased in dependent on funding sources.

Community Policing – The Department continues to develop Neighborhood Watch Groups and solicits volunteers into its Volunteers In Police Service program (VIPS).

Scottsbluff

Scottsbluff Public Library

Fund 111 Dept 151

Vision - The Lied Scottsbluff Public Library will be an essential part of the community and serve as a center of community life. The library will be a place for people of all ages and backgrounds to fulfill their informational, educational and recreational reading, viewing and listening needs. The library will promote intellectual freedom and literacy, along with a love of learning through programs for both young people and adults. The library will respond to our community's evolving needs and expectations to remain relevant and vital.

Mission - The Lied Scottsbluff Public Library is devoted to supporting lifelong learning and access to information, ideas and new technologies for all in our community.

The library provides resources and ongoing programs for children and youth as well as adults. The library staff interacts with all segments of the population and all age groups from pre-school children to senior citizens and providing quality service in a warm, friendly, and customer-oriented manner to all is a trademark of the library and the library staff.

Of the Scottsbluff Public Library card holders, 59% are residents of Scottsbluff and 41% are non-residents. Of these, 77% are adults, 15% are teens or young adults and 8% are children.

Among the programs offered at the Scottsbluff Public Library are the following: Homebound Book Delivery to the Elderly and Disabled, Spanish and Bilingual books, book discussion groups, Talking Books and Braille for the blind, large print books, federal and state government documents, free Internet access and public use computers, online databases, Netlibrary, local history and genealogy collection, videos, audio books, Overdrive downloadable audio books and e-books, NebraskKARD, pre-school storytimes, teen adult and juvenile Summer Reading Programs, adult Winter Reading Program. Additionally, the library partners with the civic organizations, schools and businesses to promote reading. The Nebraska Read program for literacy, Kiwanis Priority-One program and the KinderCarding program with the Star-Herald are examples of these partnerships.

The library supplies valuable support for economic efforts by providing access to relevant and needed information for business, industry, and agriculture and adds value to the overall quality of life in the community. The public library is the city's center for life-long learning and the informational needs of the community. *A library says a lot about a city.*

Mission Statement

The mission of the Scottsbluff Park & Recreation Department is to strengthen community image and sense of place, support economic development, strengthen safety and security, promote health and wellness, foster human development, increase cultural unity, protect environmental resources, provide recreational experiences and facilitate community problem solving.

The Parks and Recreation Department is comprised of the Park, Recreation and Zoo Divisions. The Park Division manages 47 sites (5 school-owned properties) including 23 parks, 10 tennis courts, 11 lighted baseball and softball fields, 4.89 miles of trail system, 12 picnic shelters, 5 public restrooms, 14 playgrounds, visitor information center, 30 city blocks of urban landscaping, 11 blocks of landscaped medians and a 43-site full-service campground. The Park Division performs the maintenance and improvements to its 281-acre park system.

The Recreation Division is responsible for the staffing, programming and scheduling of the indoor and outdoor pools at the Splash Arena and the Westmoor Pool. The division provides over 50 community activities such as: National Hershey Track and Field Meet, Adult Softball Leagues, Pre-School and American Red Cross Swimming Instruction, Tennis Instruction, Movies in the Park, River Runs, Tumbling,

The Parks Department also received its 17th Tree City USA award in a row. The department will continue to strive to accomplish the City's Comprehensive Plan to improve the leisure services and focus on using the river as an attraction for tourists.

The Regional Library Fund was established many years ago to handle state and federal funds reimbursing the library for contractual services provided to other libraries in the Panhandle area and as reimbursement for being net lenders in cooperative interlibrary loan activities. Grant funds and contractual funds are now included here. Any balances in this fund are carried over to the start of the next fiscal year and a small portion of the balance supplements the regular library budget in lean years.

Summary

Mission Statement

The Staff of the Transportation Department of the City of Scottsbluff are responsible for providing prompt, professional and efficient service to the citizens of Scottsbluff and strive to maintain the best street network possible with public safety being of the highest priority.

The Transportation Fund provides for the operations of the Transportation Department. The Transportation Department is comprised of a director, a foreman, five heavy equipment operators, three motor equipment operators, three maintenance workers, a maintenance mechanic, and a clerical technician.

The Transportation Department is responsible for street repairs from crack-sealing to snow removal to replacement. The department paints striping for streets and crosswalks, sweeps streets, installs signs, repairs signal lights, installs holiday decorations, barricades streets and alleys, blades unsurfaced streets and alleys, mows public rights-of-way, controls snow and ice on roadways, controls mosquitoes, repairs catch basins, gravels unsurfaced streets and alleys, and repairs curbs and gutters. The department also compiles various reports, such as lane-mile, inventory, one- and six-year street improvement plans, and handles citizen requests in a timely manner.

The Transportation Department will continue their inter-local agreements for painting and sweeping with the Village of Terrytown. We will also be converting our records and drawings to the GIS system which will allow us to track street maintenance on computer.

We will continue to chip seal residential streets and work on mill and overlay of mains throughout town.

Fund 213 - Dept 213

16-3

The Cemetery Fund provides for the operations of the Cemetery Division of the parks and Recreation Department. Fairview Cemetery is a 40-acre facility with over 16,000 headstones to maintain. It is staffed with two full-time employees. The general activities of the Cemetery Division include mowing, watering, sodding, seeding, applying chemicals, forestry, opening and closing, graves, cremation burials, lot care, grave site location, genealogy, and lot sales.

Scottsbluff

Summary

10

The Cemetery Perpetual Care Fund is established by state statute for the perpetual care, maintenance and improvement of the Fairview Cemetery. This fund receives revenue from a dedicated property tax levy and through perpetual care assessments from non-Scottsbluff resident users. The annual revenues into this fund are transferred to the Cemetery Fund to support operations, maintenance and capital improvement activities.

The Special Projects Fund is a "catch-all" fund for projects which do not fit neatly into other funds. Typically, projects in this fund are the result of reimbursement grants, transfers from other funds, or other revenues which are specifically tied to a particular expenditure. A significant sum is usually included in the "Miscellaneous" expenditure and revenue accounts of the fund to allow any unanticipated activity to fit under the authorized budget.

The Business Improvement District Fund is provided for the operations and maintenance of the Offstreet Parking District. This budget receives oversight form the Business Improvement Board which represents landowners in the district. The City's Development Services Department provides staff assistance to the board.

Continues the funding of City-provided services in the district, including partially supporting the salary and benefits costs of a clerical technician in the Police Department.

This Fund is used to track the operation of the city's two industrial sites; the Scottsbluff Industrial site on Highway 26 south-east of Scottsbluff, and the Skyport Industrial site at the airport.

Revenues in this fund are primarily derived from the operation of a farm on the unused portion of the Scottsbluff Industrial site, and from the sale of property on the sites.

Keno

The Keno Fund receives royalty revenue from the operation of Scotts Bluff County-approved keno facilities in the city of Scottsbluff. Currently, the City receives five percent of gross revenues from keno satellite operations and one percent of gross revenues from the main keno parlor at the intersection of Avenue I and S. Beltline Highway. Pursuant to state statute, these funds may be used for "community" projects and improvements.

Summary

The Economic Development receives revenues and funds projects as part of the City's LB840 economic development program. This program, authorized under the Local Option Municipal Economic Development Act, allows sales tax receipts to be specifically earmarked for economic development activities. The intent of the program is to create jobs in and around Scottsbluff. Eligible businesses include those in manufacturing, interstate commerce and telecommunications; moneys may be used to provide job credits, buy land, and retain technical expertise on behalf of an eligible businesse.

The LB840 program is administered by the City Manager, who receives guidance and oversight from two citizen committees. The City Council retains the final authority for disbursement of funds. The LB840 program sunsets in October, 2015.

Summary 7-16-13

The Mutual Fire Organization Fund is provided for the purpose of financing operational and equipment needs for fire protection, emergency response, or training with in our joint areas of operation. There are currently fourteen separate fire agencies in Scottsbluff County comprising the inter-local Mutual Fire Organization. This funding is made available through the Nebraska Mutual Finance Assistance Act.

The Debt Service Fund is used to retire the long-term debt obligations of the City. This fund is used to service general obligation and special assessment debt. The fund is supported through revenues from a dedicated property tax levy along with principal and interest payments from special assessments.

Nebraska does not have a statutory limit on a city's level of outstanding general obligation debt.

Summary 7-17-B

The TIF Projects Fund is used to track the construction and financing of Tax-Increment Financing(TIF) projects, from the planning stage through the payoff of the bond issued to finance the project. Each TIF is assigned a project number, which follows that project through all phases.

Fund 411

The CDBG funds are administered through the Community Development Division of the Development Services Department. The division provides grant administration services for federal, state and local grant projects. Primarily, the division prepares applications for CDBG funds to be used in the comprehensive neighborhood revitalization of our blighted neighborhoods. The department conducts all phases of grant administration from approving applications to bidding projects, monitoring construction, completing financial records, and final inspections.

The CD Division will assist with community meetings and attitude surveys to determine the projects and areas that need assistance. These projects generally fall into the categories of housing rehabilitation, neighborhood revitalization and public works. The division also administers economic development and rental rehabilitation revolving loan funds. The Nebraska Department of Economic Development monitors all CDBG activities.

Summary

Mission Statement

The Environmental Services Department is committed to providing the best possible service to all citizens and the regional community through responsible trash and recycling collections. Guided by the citizen participation, this endeavor will strive to efficiently enhance the living environment and quality of life. We will effectively respond to constituent needs and efficiently deliver services to the community, continue and expand intergovernmental cooperation to bring economies of scale and reduce operational costs.

The Environmental Services Fund provides for the operations, maintenance and capital expenditures of the Environmental Services Department. The Environmental Services Department provides specific services including: once per week solid waste and yard waste collection to all residential customers; once per week to seven times per week collection for commercial, industrial and institutional customers; special pickups for items which will not fit in the normal containers; construction containers from 1.5 cubic yards to 40 cubic yards; compactor containers from 20 cubic yards to 40 cubic yards; repair and replacement of solid waste containers; additional solid waste and yard waste collections on an individual basis; and a staffed tree dump /yard waste/appliance recycling depot.

The Department also offers residential and commercial recycling programs, including curbside and alley collection, staffed drop-off, processing, liaison with markets, and community education to the region.

The Wastewater Fund supports the operation of the Wastewater Department which is responsible for the management and supervision of the City's waste flows, infrastructure and equipment. The Wastewater Department operates and maintains a 2.5 MGD activated sludge, aerated lagoon treatment system. Preventative equipment maintenance is performed by staff on more than 300 items to keep the equipment and treatment process at maximum efficiency.

In House Laboratory - Our employees perform sample analysis and process control in our in-house laboratory. An average of 600 samples are collected each month at various points in the treatment process to accurately examine the effectiveness of treatment and make necessary changes to the process as the analysis dictates. Our Plant staff handle analysis, reporting the other regulatory requirements associated with the City's National Pollutant Discharge Elimination System Permit.

Sludge and Biosolids Processing – Our treatment involves an extensive sludge process using a polymer feed system, activated sludge tanks, belt filter press and pumps. Sludge is separated from the treatment process, aerated, pressed, treated and dewatered to produce cake solids. Cake solids are transported to an asphalt pad for drying and curing. Solids are turned several times and mixed with amendments during the drying process. 200 Tons of compost are processed on an annual basis. This compost operation requires a separate permit based on EPA 503 regulations which is managed by our Wastewater Department.

Collection System – The Wastewater Department is responsible for approximately 90 miles of sanitary sewer lines and 1,815 manholes. An extensive sewer collection system cleaning and jetting maintenance program is being established for the FY2005/06 budget to begin jetting and cameraing the entire collection system. In addition, the Department will locate, uncover and raise manholes to be accessible at all times. In 2005, this Department established and is enforcing requirements of a Fats, Oils and Grease Program to assist in maintaining our collection system.

The Wastewater Fund supports the operations of the Stormwater Collection System by placing revenue in a special fund to support Stormwater. Additionally, the Wastewater staff are involved with cleaning stormwater lines and permit requirements.

The Wastewater Fund supports the City's Geographic Information Systems (GIS) Department which provides valuable mapping and data collection for the Wastewater facilities and collection system.

The Water Fund supports the operations of the Water Department which is responsible for the management and supervision of both the City and Airport public water supplies and infrastructure. The Water Department is charged with adhering to the Nebraska Department of Health and Human Services Regulations Governing Public Water Systems, Title 179.

Water Wells and Storage Towers – The employees of the Water Department handle the control, maintenance, operation and daily monitoring of 12 public water wells equipped with chemical injection of Sodium Hypochlorite for system disinfection. The combined pumping capacity for the City's system is 14,100 GPM and the Airport system is 750 GPM. Five storage towers are also supported by this fund which are checked and maintained daily. The combined storage for the City is 2,550,000 gallons of water and the Airport is 200,000 gallons.

Infrastructure – Our employees maintain over 100 miles of water main, 740 fire hydrants, 1,200 main valves and 6,200 service lines with curb boxes (property shut-off valves) that make up the distribution system. Our maintenance crew repairs water mains, fire hydrants, valves, water service lines, curb boxes and installs new water service for customers.

Diggers Hotline (One-call) Locates – The Water Department handles responding to an average of 600 diggers hotline locates each month. State law requires that everyone call for locates before any digging takes place. Each utility is responsible for responding to these locates and marking where their lines are in the specific area. We locate water, sewer and stormwater utilities for the City.

Water Meters – The water fund supports the purchase of water meters used to chart water use for billing purposes. There are 6,170 meters in the system which we are responsible to maintain and repair. Our employees rebuild the water meters that are changed out to prepare for future use. This is done by sandblasting, painting, rebuilding and testing for accuracy. The budget for FY2005/06 includes funds for purchasing radio read units for our meters. Eventually readings will be gathered remotely by passing by locations rather than stopping at each of them. Meter Reading – We have one full time meter reader that continually walks the entire City gathering readings from all meters for utility customer billing. Our reader works hand-in-hand with MIS to provide the readings they need for each billing cycle.

The Water Fund supports the operations of the Stormwater Collection System by placing revenue in a special fund to support Stormwater. The Water Fund also supports the City's Geographic Information System (GIS) Department which provides valuable mapping and data collection for the Water system

The Electric Fund is an enterprise fund provided for the operation of the City-owned electrical distributic infrastructure. The City leases this infrastructure to the Nebraska Public Power District (NPPD) in exchang for a quarterly lease payment. NPPD provides all services relating to electrical power productio distribution and customer service in Scottsbluff.

The Stormwater Fund is operated and staffed by the Wastewater Department and receives budgetary transfers from the Wastewater and Water Funds. This fund was newly created in FY 96/97 to detail the City's financial commitment to maintaining and improving its stormwater collection system, including the Scottsbluff Drain. In June 2005, the City has received a permit for stormwater discharge. Over the next few years, we will determine through sampling and other requirements of this permit, if the potential exists that our stormwater discharge will require treatment in the future. This fund is established to fund those costs if necessary. We are working with other communities and leaders to allow communities to create a utility to begin charging directly for stormwater in the future. The restricted cash balance is money set aside for the Scottsbluff Drain improvements.

The GIS Services Division is responsible for the implementation of a Geographic Information System. Funding is provided by other city departments. These departments, primarily Water, Water Reclamation, Transportation, Development Services, and Environmental Services, benefit greatly from the services of the GIS Division when they integrate GIS information into their daily work flow and increase their efficiency in accomplishing departmental objectives.

The City GIS is an enterprise GIS, accessible and usable by many users simultaneously. This deployment allows the GIS to serve the City's aerial imagery and other GIS data efficiently across the computer network for departmental use. This data has been useful for a variety of purposes. It was utilized to generate a ground elevation surface for storm water and flood mapping. It also led to the recent development of an impervious surfaces data set, as well as the measurement of tree canopy coverage across the city. The City GIS utilizes the data integrity functions of the GIS to administer the City Zoning data and the City Corporate Limits, as well as to manage over 100 various datasets.

The primary goals for 2008-2009 consist mainly of data development. Building off the relatively recent aerial imagery and elevation data acquisition, a number of datasets are now able to be updated from the original 1998 data sets. In addition, new data sets are capable of being generated, increasing the value of GIS services. A new handheld GPS unit will be deployed and utilized by both the GIS division and other departments to collect data in the field as needed. This will facilitate the ongoing integrity and usefulness of the GIS data sets for the City.

Scottsbluff

Fund 812

The Health Insurance Fund provides for the administration of the City's partially self-funded employee benefits program. The City's fixed (premium) and variable (claims) expenses are run through this fund, and are reimbursed on a per employee basis from both employee payroll deduction and transfers from other City funds.

CIP Project 2014—Adm-1

Financial Management Software

PROJECT INFORMATION

Department: Administration

Project Type: Software

DESCRIPTION

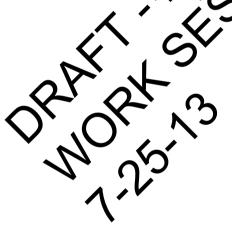

Financial management software for utilities, payroll and general finance functions

SCHEDULE

Carryover to finish project in FY14

ASSESSMENT AND JUSTIFICATION

Current software has been in place since 1996. I have been informed that Harris is no longer developing this particular software program. They have many other that they are developing instead. At some point, this could mean they will tell us that they won't even maintain the program. Software change may give us additional opportunities we aren't currently using such as Internet payment, online work orders/requests by rastomer, and review of account on Internet.

Cemetery Amenities

PROJECT INFORMATION

Department: Department Cemetery

Project Type: Type

DESCRIPTION

Columbariums (2)

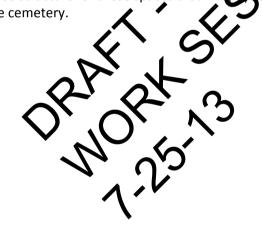

SCHEDULE

2013-2014

ASSESSMENT AND JUSTIFICATION

The cemetery is seeing a dramatic shift in the way burials are being done from traditional burials to cremations. Other cemeteries have been putting to columbariums, or structures that contain cremated remains.

We will set a fee structure for these spaces that will pay for the structure and eventually make a profit for the cemetery.

CIP Project 2014—Li-1

Computer User and Print Management Software

PROJECT INFORMATION

Department: Library

Project Type: Upgrade to computer and print management software

DESCRIPTION

The library's current computer and print management software is outdated. With the upcoming addition of a new server by the IT department our current computer/print management software will be incompatible rendering it obsolete.

SCHEDULE

FY 2013-2014

ASSESSMENT AND JUSTIFICATION

By purchasing new computer/print management software, the lib aly will gain the ability to provide faster service in regards to logging pations onto computers, as well as printing. New software will also allow functions, which means patrons to "accept" our Internet policy prior to logging into a library computer. These types of functionalities help encourage safe, responsible use of the library's technology by our library patrons. (Public Health and Safety and City Council Goal - Public Services and Infrastructure)

With the upcoming addition of a new server for the library, our current computer and print management software (s) our compatible (SQL version is not compatible with 2008 server). Without investing in a new comptoer print management software, this will cause a huge disruption in the services provided by the library for our daily computer users. The new software being investigated, invisionware, also works hand in hand with our circulation system, which again will allow as to provide jaster, quality service to our public patrons. (Implications of Project Deferral)

Other funding was donated in FY 2012-2013 by the Library Foundation for software modules that increase service and funcitionality, specifically our debt collect module (\$5120). (Leverages Outside Funding)

Riverside Park Upgrades

PROJECT INFORMATION

Department: Department Parks

Project Type: Type

DESCRIPTION

Electrical/Landscape upgrades at Riverside

SCHEDULE

2013-2014

ASSESSMENT AND JUSTIFICATION

Riverside Park has increased in popularity and traffit dramatically over the past 5 years. Large scale events, gatherings, reunions, parties and every day general use have been increasing every year. The City needs to continue to meet in the park to meet the demands in this area. To do this, we request additional electrical oxdets, trees impation and more turf grass areas. This request fits in with the overall master plan for the park as well as addresses the needs and requests from the community.

DESCRIPTION

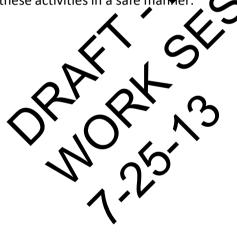

Floating docks for Riverside Ponds

SCHEDULE

2013-2014

ASSESSMENT AND JUSTIFICATION

Due to the high volume of recreation users around the ponds in Ryerside, we are asking for floating docks. We are seeing a high number of people fishing off of the banks. Some of the areas where people are fishing are steep or unstable. We would like to provide an area for people to enjoy these activities in a safe manner.

UNMARKED POLICE CARS

PROJECT INFOR	MATION
Department:	POLICE
Project Type:	EQUIPMENT

DESCRIPTION

THIS PROJECT IS THE REPLACEMENT OF 2 UNMARKED POLICE VEHICLES. UNMARKED VEHICLES ARE AN INTEGRAL NECESSITY OF THE INVESTIGATIONS DIVISION. THE ASSOCIATED COSTS OF EQUIPMENT CHANGEOVER AND GRAPHICS HAS BEEN INCLUDED IN THE TOTAL CAPITAL IMPROVEMENT COST.

SCHEDULE

THIS PURCHASE WILL OCCUR IN FY2013-2014. THE VEHICLES REPLACED WILL HAVE BEEN IN USE FOR APPROXIMATELY 12 YEARS. THIS REPLACEMENT IS NECESSARY TO MAINTAIN THE RESPONSE CAPABILITIES OF THE INVESTIGATIONS DIVISION AND TO MINIMIZE MAINTENANCE COSTS.

ASSESSMENT AND JUSTIFICATION

THREE OF THE FOUR UNMARKED VEHICLES USED EVALUE DEPARTMENTS INVESTIGATIONS DIVISION HAVE BEEN IN USE SINCE BETWEEN 2000 AND 2002. TWO OF THESE VEHICLES ARE USED BY INVESTIGATORS ASSIGNED TO THE WING TASK FORCE AND THE OTHER IS ASSIGNED TO A CRIMINAL INVESTIGATOR. THESE VEHICLES ARE USED ON A DAILY BASIS AND ESSENTIAL TO THE DIVISIONS SUCCESS IN INVESTIGATING CASES THROUGHOUT THE CITY AND REGION. THESE VEHICLES HAVE HIGH MILEAGE AND NEED TO BE USED AS EMERGENCY VEHICLES. FOR THE SAFETY OF OUR INVESTIGATORS AND THE COMMUNITY WE ARE ASKING THAT TWO OF THE OLDEST VEHICLES BE REFLACED:

STORM SEWER LIFT STATION

PROJECT INFORMATION

Department: Wastewater

Project Type: Sanitary Sewer System

DESCRIPTION

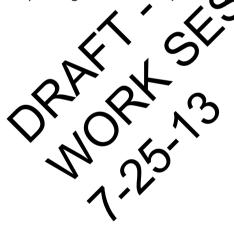

This project will allow for an evaluation of the existing lift station at Hwy 26 and Ave B - Scotts Bluff Drain, to either remove or upgrade it based on findings.

SCHEDULE

FY13-14

ASSESSMENT AND JUSTIFICATION

The stormwater liftstation at Hwy 26 and Ave B (Stores Bluff grain) is in need of an upgrade and repair. If the evaluation shows that the lift station is needed, repairs and upgrade will be made. If it is found not useful or an effective means for conveying mater during storm events, it will be removed to reduce operating and electrical tests and possible restriction of storm flows.

Broadway Phase II

PROJECT INFORMATION

Department:TransportationProject Type:Phase II Broadway Revitalization

DESCRIPTION

Broadway phase II will add traffic mitigation techniques to ensure safety of pedestrians Downtown. The project also includes installing different landscaping and aesthetic enhancements to encourage the ongoing revitalization efforts Downtown.

SCHEDULE

FY 2013-2014

ASSESSMENT AND JUSTIFICATION

The additional funding needed to revitalize produce and Downtown Scottsbluff meets several City Council Goals.

The project assists in promoting the goals and objectives of the City by forward investing in infrastructure development that will bocus on economic development.

The traffic mitigation technines will support a livable, sustainable and safe environment.

The infrastructure will be appropriately designed and maintained to be the most cost-effective and efficient manner to meet the needs and expectations of the community by creating a sustainable and vibrant down own corridor. The project will continue to enhance revitalization efforts of business districts in the charter project of downtown Scottsbluff by focusing on community sustainability.

INFRASTRUCTURE REPLACEMENT or INSTALLATION

PROJECT INFORMATION

Department: Water

Project Type: Water System

DESCRIPTION

The Water System Master Plan identifies future system needs and improvements - replacing old deterioriated or undersized mains and the installation of new main where needed.

SCHEDULE

FY13-14 Install water main from Hillerege area, north to connect Airport Water System (LB840) FY13-14 Install a tie-in with Gering at Well Field for Emergen V Use FY13-14 Install water main from S. Beltline E. to Hwy 2t (24 par construction project)

ASSESSMENT AND JUSTIFICATION

1) Use of LB840 money has been approved for the installation of water main to connect the Airport system to the Hillerege area main, thus connecting the City and Airport systems together. Engineer is in design phase and not able to complete project in FY12-13, so funds have been rolled to FY13-14.

2) For emergency use only, a term will be installed at the City's well field where Gering's water main crosses to their well first northwest of ours. The cost will be equally shared between cities. Engineer is working with State on lesign, not able to complete in FY12-13, so funds have been rolled to FY13-14.

3) The installation of new main root 3: Beltline 5, and 9th Ave. to 21st Ave., then from 21st Ave. to Hwy 26 has been spread over two years to minimize the impact on budget. The engineer has been hired and plans and specifications underway. This new main will loop the system and provide a secondary route to water if sprething would happen to the main line currently serving users on the south east specific of Scottsbluff including the Wastewater Treatment Plant, future development and service to Minatare.

The Water Master Plan is due to be updated in FY17/18

WATER TREATMENT/REMOVAL OF URANIUM

PROJECT INFORMATION

Department: Water

Project Type: Water System

DESCRIPTION

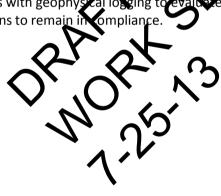

This project is for the installation of monitoring wells to evaluate and make recommendations to remain in compliance with established maximum contaminant levels (MCL) for uranium.

SCHEDULE

FY13-14

ASSESSMENT AND JUSTIFICATION

Uranium levels specifically at the Well Field have non-assed over the last three years and have not gone back down. Three of our existing mem are near the WCL and have exceeded it at times. It's only a matter of time before weare in volation to exceeding the MCL. One of our wells is over the limit and not yet in use because of the An engineer has been hired for this project and preliminary studies have them recommending the installation and sampling of monitoring wells with geophysical logging to evaluate what we're facing and make recommendations to remain incompliance.

WATER WELLS

PROJECT INFORMATION

Department: Water

Project Type: Water System

DESCRIPTION

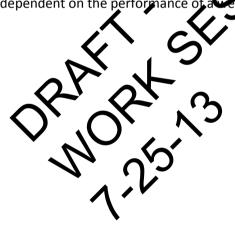

This project allows for the City to maintain existing water wells as needed.

SCHEDULE

FY13-14

ASSESSMENT AND JUSTIFICATION

A large part of each well is located underground. This unseed area is important to inspect and repair as necessary to maintain equipment and keep these vertex perating for years to come. This process requires pulling the well and newing the underground casing, column pipe, bowls and other components to access their condition and determine what repairs may be necessary. The schedule is dependent on the performance of a wellon an as needed basis.

WATER TOWERS

PROJECT INFORMATION

Department: Water

Project Type: Water System

DESCRIPTION

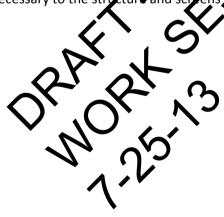

This project will provide funding to repaint the exterior and interior of the water towers, and repair damage from corrosion as needed.

SCHEDULE

Beginning in FY16-17, one tower a year will be recoated an repaired where needed starting with the Hydropillar by SBCC.

ASSESSMENT AND JUSTIFICATION

To help maintain the City's five water towers, cathodic protection equipment is installed on the inside of the tower bowls to help prevent corresion and annual washout inspections are performed on a rotating basis. Recoating the tower structures inside and out will allow a greater level of protection from corrosion and keep menu well into the future. Repairs will be made that are necessary to the structure and screens to prevent contamination for outside elements.

TRUCK REPLACEMENT

PROJECT INFORMATION

Department: Water

Project Type: Water System

DESCRIPTION

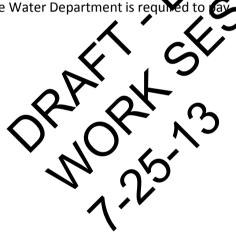

This project replaces existing trucks with new trucks as the fleet ages.

SCHEDULE

FY15-16 Replace 1 Truck FY17-18 Replace 1 Truck

ASSESSMENT AND JUSTIFICATION

This project replaces aging vehicles which are reaching the end of their service life. Existing trucks will be traded in unless other department, can use them. The funding request includes sales tax which the Water Department is required to tax

SEWER MAIN REPLACEMENT / REPAIR PROJECTS

PROJECT INFORMATION

Department: Wastewater

Project Type: Sanitary Sewer System

DESCRIPTION

The Collection System Master Plan identifies and prioritizes system improvements and repairs necessary to eliminate flow restrictions and/or accommodate future growth.

SCHEDULE

FY13-14 Repair 3 trouble spots where sewer main runs under canel Reline a 2 block area found with cracks in sewer main rone W 14th to W Overland

between Ave E and Ave F

- FY14-15 Replace Infrastructure at ditcl
- FY16-17 South Interceptor Project

ASSESSMENT AND JUSTIFICATION

1) FY13-14 There are 3 locations where the saver main runs under the canal and they're prone to having excess buildup of crease because the main is so close to the ground surface. We have budgeted to replace the portion of main that runs under the canal and install manholes for more effective cleaning. Also discovered in June, 2013 - we have a 2 block area with several cracks in the sewer main that need to be relined. The location is from W 14th to W Overland, between Ave E & Ave 5.

2) FY14-15 We have an area of existing sewer main that crosses under the SB Drain near the intersection of Hwy 26 and 77th St. Euring the master plan study, sewer flows were beyond what should be normalized this area, so there is infiltration happening.

3) FY16-17 During the master plan study, a couple areas of sewer main along our South Interceptor south of South Beltine Hwy were found to be laid with a negative slope. These areas need to be replaced with new pipe laid at a positive slope to ensure positive flow throughout the sewer.

The Master Plan Study is scheduled to be updated in FY15-16 as a contractual cost.

COMPOST PROCESSING EQUIPMENT

PROJECT INFORMATION

Department:	Wastewater / Environmental Services

Project Type: Sanitary Sewer System / Yard Waste

DESCRIPTION

Equipment needed for compost operation.

SCHEDULE

FY13-14 Grinder \$550,000 (\$275,000 each) FY14-15 Compost Turner \$500,000 (\$250,000 each) FY15-16 Screen \$500,000 (\$250,000 each)

ASSESSMENT AND JUSTIFICATION

The final biosolids study report is not comple submit budgets. However, Tetra Tech has guided City staff through the ste snece e if we are able to meet EPA 503 regulations for compost at the tree dump y on County Road M. The test project has revealed we can meet r creating a Class A compost by taking wet loads of for Tree dump facility where it is mixed with collected biosolids off the bel ranches There will be improvements needed to the yard waste and existing site to mak compost facility for our future. The final report will address this.

3 Crip

Three pieces of equipmentary necessary for our ability maintain a fully operating compost facility. They have been sudgeted over a three year period with costs being shared by both Wastewater and Environmental Services. We will also seek grant funding from the Waste Reduction and Recycling Incensive program and/or other sources where possible.

BIOSOLIDS BUILDING ADDITION

PROJECT INFORMATION

Department: Wastewater

Project Type: Sanitary Sewer System

DESCRIPTION

Building addition/extension of truck entry area to Belt Press (Biosolids) Building.

SCHEDULE

FY13-14

ASSESSMENT AND JUSTIFICATION

The Belt Press (Biosolids) Building has in mea where we back the dump truck in to catch the cake solids coming off the Belt Press. This area isn't big enough for the dump truck to back completely in so a full load of cake solids can be hauled away for processing. While we've dealt with this when only hauling to the compost parton site, now that we're hauling them miles away to the tree dump facility on County Road VI, it will be important to make the most of each trip taking full loads.

This project will allow functing to extend the building enough to allow the dump truck access to be fully loaded.

WASTEWATER TREATMENT EQUIPMENT

PROJECT INFORMATION

Department: Wastewater

Project Type: Sanitary Sewer System

DESCRIPTION

Replacement or rebuild of aged equipment that continue to break down and no longer perform at their capacity.

SCHEDULE

FY13-14 Replace or Rebuild Return Activated Sludge (RAY) Pump

FY17-18 Replace #1 Aeration System Blower

FY18-19 Replace #2 Aeration System Blower

FY19-20 Replace #3 Aeration System Blowe

ASSESSMENT AND JUSTIFICATION

In FY12-13 we had one RAS Pump fail and it was not repairable so we had to replace it. This fiscal year, we have budgeted to have the other BAS Pump rebuilt or replaced. These pumps run an estimated 18,000 hours a year and are several years old. This action will take us well into the future as far as the RAS Pumps part in the treatment process is concerned. The City has three large 250HP Blowers that are used to add air to the wastewater in the aeration lagoon. In ears FY17 18 to FY19-20, we have scheduled to replace one of these blowers each year.

TRUCK REPLACEMENT

PROJECT INFORMATION

Department: Wastewater

Project Type: Sanitary Sewer System

DESCRIPTION

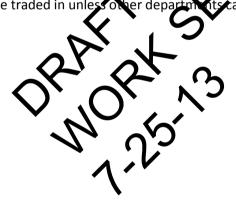

This project replaces existing trucks with new ones as the fleet ages.

SCHEDULE

FY14-15 Replace 1 Truck FY16-17 Replace 1 Truck FY18-19 Replace 1 Truck

ASSESSMENT AND JUSTIFICATION

This project replaces aging vehicles that are reaching the end of their service life. Existing trucks will be traded in unless other departments can use them.

SECURITY FENCING - TREATMENT PLANT GROUNDS

PROJECT INFORMATION

Department: Wastewater

Project Type: Sanitary Sewer System

DESCRIPTION

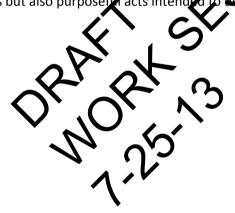

This project is for the replacement of old existing fencing that surrounds the treatment plant grounds.

SCHEDULE

FY17-18

ASSESSMENT AND JUSTIFICATION

The existing fence that surrounds the treatment plant is n heed of update and replacement to help protect the grounds and investment in our regiment plant equipment. Not only from random acts but also purposeful acts intended to disrupt or cause harm.

Costs (thousands of	Planning/ Design	Site Acquisition	Site Improvement	Con- struction	Equipment	Other	Contin- gency	TOTAL

Pool Enhancements

PROJECT INFORMATION

Department: Department Recreation

Type

Project Type:

DESCRIPTION

Splash Arena Repairs

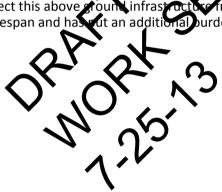

SCHEDULE

2013-2014

ASSESSMENT AND JUSTIFICATION

Funds are being requested to swap the rusty metal pipes leading to the sand filters for all new PVC pipes. Also, funds requested would be used to sandblact and paint the sand filters to extend their lifespan. Structurally, the filters are mOK condition but need additional protection.

Along with these requests, we are asking that these times be used to purchase a structure to cover the sand filters and the heater to protect them from the elements. Currently, there isn't anything to protect this above ground infrastructure from wind, rain, snow and heat which has decreased the lifespan and has put an additional burden on the budget through repair costs.
