BlinkerStop® Flashing LED STOP Sign R1-1

TAPCO SKU: 2180-00203

Price: \$1,500.00

Power Source: 110V AC

Size: 30 in H x 30 in W

Additional images, click to enlarge

This sign is an AC powered, LED enhanced, 30" BlinkerStop Sign with 3M Diamond Grade Cubed (DG3) reflective sheeting. The MUTCD legend is a R1-1. BlinkerStop signs have 8 super-bright red flashing LED's and are sheeted with a graffiti resistant overlay film. A single post hole pattern is punched for easy mounting. These signs can be seen up to two miles away and are proven to reduce accidents and increase driver awareness in all weather conditions. Each sign is backed with a two year TAPCO standard warranty. TAPCO-Made in the USA.

Other Activation Methods Available

Do you have a unique problem requiring a custom activated BlinkerSign® system? For years TAPCO has been providing custom stand-alone solar solutions. These electrical grid independent systems provide reliable warning when needed most-in harsh environments, dangerous areas and remote locations.

- Climate activation (fog, snow, ice, wind, etc.)
- In-ground inductive loop
- Temperature sensor
- Water sensor (flood detection)
- Overheight detection

TAPCO's Blinkersign® Signs combine flashing LEDs and 3M DG³ reflective sheeting, resulting in the most visible signage available. Powered by an eco-friendly solar panel, BlinkerSign® LED signs deliver the message day and night alike. Ideal for high-incident areas or where new traffic conditions exist. The TAPCO patented AutoBright circuitry measures the available light and adjusts the LED flash brightness accordingly. Every BlinkerSign® is backed by a one year warranty (extended warranty available). TAPCO can make any MUTCD (or non-MUTCD) sign into a BlinkerSign®: please call a TAPCO salesperson to discuss your project needs. Installs easily onto any new or existing sign post.

- Can be integrated into an ITS (Intelligent Transportation System)
- Optional programming available: around-the-clock operation, off time clocks, push buttons and/or vehicle motion detectors
- Multiple signs can be synchronized
- Heightens driver awareness
- Anti-graffiti film overlay
- Easy installation
- Proprietary AutoBright™ circuitry
- Fully encapsulated wiring protects against inclement weather, tampering and vandalism
- Day-Viz® daylight visible high intensity LEDs are visible in bright daylight, fog, rain and snow
- No AC is required. The low power allows for a smaller panel and a cleaner look

BlinkerStop® yielded 52.9% reduction in blow throughs, by increasing visibility at high-incident locations that are able to be noticed day and night. The lighting is visible up to 2 miles away, and features a 30 day autonomy (flashing 24/7)

Blinkersign, R1-1, 30", Stop, DG3, Red, Solar, 8 Red LEDs, Single Post Mount

Other Activation Methods Available

Do you have a unique problem requiring a custom activated BlinkerSign® system? For years TAPCO has been providing custom stand-alone solar solutions. These electrical grid independent systems provide reliable warning when needed most-in harsh environments, dangerous areas and remote locations.

RESOLUTION TO ACCEPT TURNBACK

Of Trunk Highway 112

WHEREAS, MnDOT has proposed that the County of Le Sueur accept responsibility for that section of Trunk Highway 112 from the North Ramp of US 169 in Le Sueur to Trunk Highway 99; and

WHEREAS, It has been determined that the County of Le Sueur will receive a payment for the restoration of Trunk Highway 112; and

WHEREAS, This route will be designated as a County State Aid Highway (CSAH); and

WHEREAS, The County of Le Sueur will receive future CSAH maintenance and construction funds to assist in the cost of future maintenance and construction projects; and

WHEREAS, The Minnesota Legislature needs to approve the removal of this section of Trunk Highway 112 from the Statutes;

NOW THEREFORE BE IT RESOLVED; that the County of Le Sueur approves MnDOT's proposal to enter into a future turn back agreement for Trunk Highway 112, and requests that MnDOT perform the process for the turnback to occur.

I, Darrell Pettis, duly appointed and qualified Administrator in and for the County of Le Sueur, do hereby certify that the above is a true and full copy of a resolution duly adopted by the County Board of Le Sueur County, State of Minnesota, assembled in regular session on the 23rd day of August, 2016.

Le Sueur County Administrator
