**STATE OF MINNESOTA
DEPARTMENT OF TRANSPORTATION
And
LE SUEUR COUNTY
DETOUR AGREEMENT**

For Trunk Highway No. 99 Detour

State Project Number (S.P.):	<u>4008-25</u>	Original Amount Encumbered
Trunk Highway Number (T.H.):	<u>99=021</u>	<u>\$16,016.93</u>
Federal Project Number:	<u>STPM 4013 (227)</u>	

This Agreement is between the State of Minnesota, acting through its Commissioner of Transportation ("State") and Le Sueur County acting through its Board of Commissioners ("County").

Recitals

On December 9, 2016, the State awarded a construction contract to be performed upon, along and adjacent to Trunk Highway No. 99 at the Nicollet/Le Sueur County Line (Minnesota River) under State Project No. 4008-25 (T.H. 99=021); and

1. The State required a detour to carry Trunk Highway No. 99 traffic on County State Aid Highway No. (C.S.A.H.) 21 during the construction; and
2. The State began using the County road as a detour with the understanding that a Detour Agreement, providing for reimbursement by the State to the County for the road life consumed by the detour, would be entered into at a later date; and
3. The State is willing to reimburse the County for the road life consumed by the detour as hereinafter set forth; and
4. Minnesota Statutes § 471.59, subdivision 10, § 161.25, and § 161.20, subdivision 2(b), authorize the parties to enter into this Agreement.

Agreement

1. Term of Agreement

- 1.1 *Effective Date.*** This Agreement will be effective on the date the State obtains all signatures required by Minnesota Statutes § 16C.05, subdivision 2.
- 1.2 *Expiration Date.*** This Agreement will expire when the State removes all detour signs, returns the temporary Trunk Highway detour to the County, and pays for the detour compensation.

2. Agreement Between the Parties

2.1 *Detour.*

- A. *Location.*** The State did establish the T.H. 99 detour route on the following County road as detailed in the project plans or Special Provisions:
C.S.A.H. 21 for a total distance of 3.0 miles.
- B. *Modification of the Detour Route.*** The State may modify the detour route or may add additional roadways to the official detour during construction. The State will request concurrence from the County for changes to the detour route. If such change increases the States obligation over Article 3.3B, the agreement will be amended.

- C. Axle Loads and Over-Dimension Loads.** The County will permit 10-ton axle loads on the detour route. Over-dimension loads will not be permitted except in cases of extreme emergency.
- D. Traffic Control Devices.** The State may install, maintain and remove any traffic control devices it considers necessary to properly control the detoured traffic. The State may paint roadway markings, such as the centerline, edge lines and necessary messages.
- E. Detour Maintenance.** The State will perform any necessary bituminous patching and ordinary maintenance on the roadway or shoulder of the County roads used for the detour, at no cost or expense to the County. Bituminous patching is defined as any work, including continuous full width overlays, less than 100 feet in length. All State expenditures beyond those required for bituminous patching and ordinary maintenance will be credited against the road life consumed reimbursement due the County.
- F. Duration.** The State will provide the County with advance notice identifying the dates the State intends to place and remove the detour signing.

2.2 Basis of State Cost (Road Life Consumed). The State will reimburse the County for the road life consumed by the detour using the following methods, as set forth in the Detour Management Study Final Report dated January 1991, and updated by MnDOT's Policy on Cost Participation for Cooperative Construction Projects and Maintenance Responsibilities between MnDOT and Local Units of Government.

- A.** The "Gas Tax Method" formula, multiplies the Combined Tax Factor per mile times the Average Daily Traffic ("ADT") count of vehicles diverted from the Trunk Highway times the county road length in miles times the duration of the detour in days to determine the State's cost for the road life consumed by the detour.
- B.** The County may, at its option, perform an "Equivalent Overlay Method" analysis. A State-approved firm, at no cost or expense to the State, must perform the testing and analysis. The County will keep records and accounts to verify any claim it might bring against the State for additional costs using the "Equivalent Overlay Method".

3. Payment

3.1 For Road Life Consumed. \$16,016.93 is the State's estimated cost for the road life consumed by the detour based on the data below:

<u>Tax Factor</u>	<u>ADT</u>	<u>Road Length</u> <u>(Miles)</u>	<u>Duration (Days)</u>	<u>Cost</u>
0.00513	4,688	3.0	222	\$16,016.93
Total Road Life Consumed				<u>\$16,016.93</u>

The State's total payment for the road life consumed by the detour is equal to the amount computed by using the "Gas Tax Method" formula plus any amount determined by using the "Equivalent Overlay Method" analysis that is in excess of twice the "Gas Tax Method" amount.

- 3.2 Maximum Obligation.** \$40,000.00 is the maximum obligation of the State under this Agreement and must not be exceeded unless the maximum obligation is increased by execution of an amendment to this Agreement.
- 3.3 Conditions of Payment.** The State will pay the County the State's total road life consumed payment amount after performing the following conditions.
 - A.** Execution of this Agreement and the County's receipt of the executed Agreement.
 - B.** State's encumbrance of the State's total payment amount.
 - C.** State's removal of all detour signs.

D. State notifies the County of the removal of the detour signs, and the number of days the detour was in effect.

E. State's receipt of a written request from the County for payment.

4. Release of Road Restoration Obligations

By accepting the State's road life consumed payment plan and total payment amount, the County releases the State of its obligation, under Minnesota Statutes § 161.25, to restore the county roads used as a T.H. 99 detour to as good of condition as they were before designation as temporary Trunk Highways.

Termination must be by written or fax notice to the County. The State is not obligated to pay for any services that are provided after notice and effective date of termination. However, the County will be entitled to payment, determined on a pro rata basis, for services satisfactorily performed to the extent that funds are available. The State will not be assessed any penalty if this Agreement is terminated because of the decision of the Minnesota Legislature, or other funding source, not to appropriate funds.

11.3 *Suspension.* In the event of a total or partial government shutdown, the State may suspend this Agreement and all work, activities, performance and payments authorized through this Agreement. Any work performed during a period of suspension will be considered unauthorized work and will be undertaken at the risk of non-payment.

12. Force Majeure

Neither party will be responsible to the other for a failure to perform under this Agreement (or a delay in performance), if such failure or delay is due to a force majeure event. A force majeure event is an event beyond a party's reasonable control, including but not limited to, unusually severe weather, fire, floods, other acts of God, labor disputes, acts of war or terrorism, or public health emergencies.
