ALLOWABLE EXPENDITURES & REPORTING REQUIREMENTS**2018 BOAT & WATER SAFETY STATE GRANT PROGRAM**

Use these guidelines when completing the Proposed Budget – Exhibit A form.

GENERAL – All of the expenditures listed below must be directly related to the boat and water safety program. When personnel or equipment costs are split between general law enforcement duties and boat and water safety work, the percentage paid out of the boat and water safety account may not exceed the percentage of time the individual or piece of equipment is actually used for boat and water safety enforcement. Boat and water safety activities are those activities outlined in: 1) M.S. § Chapter 86B, 2) Minn. Rules - Chapter 6110, 3) search and recovery operations in the waters of the state and 4) the portions of Chapter 169A that are applicable to motorboats.

(SPENDING PLAN, INVOICES, ACCOUNTING and REPORTS) – Invoices may be submitted at the end of the grant period or as often as monthly. The proposed expenditures listed on your spending plan (Exhibit A) must reasonably match both your invoice and annual year-end report. If you need to purchase or pay for something that was not on the original Spending Plan, you will need to first send in a revised plan (Exhibit A) signed by the sheriff or designee, and if approved by the State, proceed from there. The Grantee must satisfactorily submit all annual performance reports and reimbursement requests for each year of participation in this Program by the date(s) requested by the State, unless the Grantee requests an extension in writing and the State approves an extension in writing. Minnesota statutes and rules require that you have a separate account for the state boat & water safety funds.

PERSONNEL – Personnel expenses (including salary, insurance, social security, retirement, worker's compensation, etc.) for persons who are actually engaged in boating and water safety duties. Records or logs of time spent on the program are necessary to support these expenses and should be retained not less than three years. If officer hours are a part of your reimbursement, please send one (1) example officer log for the time period in which reimbursement is being requested.

SUPPLIES AND EXPENSES – This includes uniforms, fuel, oil, lubricants, repairs, rental/lease costs (docks, buildings, office facilities, equipment, etc.), insurance, travel costs, training expenses and expendable supplies (fuel, rope, paint, printing, etc.). No cell phone charges will be allowed. All expenditures need to be verifiable as allowable expenditures under this grant. Items must be listed on Exhibit A (proposed spending plan) of this grant and be descriptive in nature.

EQUIPMENT - Includes boats, motors, trailers, buoys, depth locators, radios, etc. Equipment that is being used for general duties may be either charged to the boat and water safety account according to percentage of use or by mile/hour of operation. Mileage logs showing dates, odometer readings and assignment are necessary to support all vehicle use and should be retained not less than three years. If you purchase equipment and it is greater than \$5,000, please submit a copy of the purchase invoice. The purchase of snowmobiles and ATVs with boat and water funds is not allowed.

County sheriff's departments are urged to contact Boat and Water Safety at the Minnesota Department of Natural Resources for a determination prior to any questionable proposed expenditure. All expenditures are subject to state audit. Be sure to keep accurate documentation and records of all expenditures.

REVISED 2018

Resolution or county board minutes are needed unless your county is exempt from this requirement.

Conflict of Interest Disclosure

Conflict of Interest:

A conflict of interest (actual, potential, or perceived) occurs when a person has actual or apparent duty or loyalty to more than one organization and the competing duties or loyalties may result in actions which are adverse to one or both parties. A conflict of interest exists even if no unethical, improper, or illegal act results from it.

Actual Conflict of Interest:

An actual conflict of interest occurs when a decision or action would compromise a duty to a party without taking immediate appropriate action to eliminate the conflict. Examples include, but are not limited to:

- One party uses his or her position to obtain special advantage, benefit, or access to the other party's time, services, facilities, equipment, supplies, badge, uniform, prestige, or influence.
- One party receives or accepts money (or anything else of value) from another party or has equity or a financial interest in or partial or whole ownership of the other party's organization.
- One party is an employee, board member or family member of the other party.

Potential Conflict of Interest:

A potential conflict of interest may exist if one party has a relationship, affiliation, or other interest that could create an inappropriate influence if the person is called on to make a decision or recommendation that would affect one or more of those relationships, affiliations, or interests. For example, when one party serves in a volunteer capacity for another party, it has the potential to, but does not necessarily, create a conflict of interest, depending on the nature of the relationship between the two parties. A disclosed potential conflict of interest warrants additional discussion in order to identify the nature of the relationship, affiliation, or other interest and take action to mitigate any potential conflicts.

Perceived Conflict of Interest:

A perceived conflict of interest is any situation in which a reasonable third party would conclude that conflicting duties or loyalties exist. A disclosed perceived conflict of interest warrants additional discussion in order to identify the nature of the relationship, affiliation, or other interest and take action to mitigate any potential conflicts.

Organizational Conflict of Interest:

A conflict of interest can also occur with an organization that is a grant applicant or grantee of a state agency. Organizational conflicts of interest occur when:

- A grantee is unable or potentially unable to render impartial assistance or advice to the State due to competing duties or loyalties
- A grantee's objectivity in carrying out the grant is or might be otherwise impaired due to competing duties or loyalties
- A grantee or potential grantee has an unfair competitive advantage through being furnished unauthorized proprietary information or source selection information that is not available to all competitors.
